Virex® II 256
One-Step Disinfectant Cleaner And Deodorant

For Use as a One-Step Cleaner/Disinfectant:

1. Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces. This product can be applied by mop, sponge, cloth, paper towel, coarse trigger sprayer, auto-scrubber or foam gun. Change cloth, sponges or towels frequently to avoid redeposition of soil. For disinfection, all surfaces must remain wet for 10 minutes.

2. Allow entire surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

To Sanitize Non-Food Contact Surfaces:

1. Apply Use Solution to non-food contact surfaces according to the label instructions. This product, when diluted in water, may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. Use Solution may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. The following medical devices and instruments may be used:

   * Catheters
   * Non-semi-critical medical devices and instruments
   * Non-critical medical devices and instruments

2. Allow entire surface to remain wet for 10 minutes. Flush toilet and rinse swab applicator thoroughly.

For Use To Clean and Disinfect Shower Rooms, Locker Rooms and Other Large, Open Areas with Use Solution:

1. Apply Use Solution to floors, walls and ceilings making sure not to get the solution on carpet. This product is designed for use on the following hard, non-porous environmental surfaces: vinyl, painted surfaces, medical offices, hotels, motels, public areas, restrooms and foodservice establishments.

2. Allow entire surface to remain wet for 10 minutes. Flush toilet or urinal and rinse swab applicator thoroughly.

For Use as a Non-Acid Bowl Cleaner/Disinfectant in Toilet Bowls from Concentrate:

1. Pre-clean heavily soiled areas. Empty toilet bowls by hand. Apply Use-Dilution: 1:256 to standard toilets and urinals from Use-Dilution: 1:128 to large (>200,000 u.s.g.) urinals.

2. Apply Use Solution to hard, non-porous environmental surfaces. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. Use Solution may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. The following medical devices and instruments may be used:

   * Catheters
   * Non-semi-critical medical devices and instruments
   * Non-critical medical devices and instruments

3. Allow entire surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

For Use as a Non-Acid Bowl Cleaner/Disinfectant in Toilet Bowls from Use-Dilution: 1:128:

1. Apply Use-Dilution: 1:128 to standard toilets and urinals from Use-Dilution: 1:256 to large (>200,000 u.s.g.) urinals.

2. Apply Use Solution to hard, non-porous environmental surfaces. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. Use Solution may be used to pre-clean or decontaminate critical or semi-critical medical devices and instruments. The following medical devices and instruments may be used:

   * Catheters
   * Non-semi-critical medical devices and instruments
   * Non-critical medical devices and instruments

3. Allow entire surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

Pre-clean heavily soiled areas. Apply Use Solution to any non-food contact surface. This product is designed for use on the following hard, non-porous environmental surfaces: vinyl, painted surfaces, medical offices, hotels, motels, public areas, restrooms and foodservice establishments.

1. Allow entire surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

For Use as a One-Step Cleaner/Disinfectant:

1. Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces. Probable mucosal damage may contraindicate gastric lavage.

Note to Physician:

IF INHALED:

Remove from exposure and have individual breathe fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If breathing stops, have individual given CPR. Do not give mouth-to-mouth resuscitation; the individual may aspirate (inhale) vomit. Call 911 (or immediately consult telephone directory for toxic substance emergency number).

IF ON SKIN OR CLOTHING:

Wash vigorously with soap and water. Remove contaminated clothing and wash skin thoroughly under running water.

IF IN EYES:

Flush eyes immediately with plenty of water for 15 minutes. Remove contact lenses if worn. Continue rinsing eye even after last contact lens is removed. If irritation persists, get medical attention. Call 911 (or immediately consult telephone directory for toxic substance emergency number).

FIRST AID

Do not contaminate water, food or feed by storage or disposal.

**Virex II 256**

This product is a one-step disinfectant cleaner and deodorant designed for general cleaning, disinfecting and deodorizing of hard, non-porous environmental surfaces. It cleans quickly by removing dirt, grime, mold, mildew, body oils and other common soils found in hospitals, nursing homes, schools and colleges, medical offices, hotels, motels, public areas, restrooms and foodservice establishments.

It is designed for use on the following hard, non-porous environmental surfaces: vinyl, painted surfaces, plastic, glazed ceramic, glazed porcelain, chrome, aluminum, laminated surfaces and baked enamel surfaces associated with floors, walls, ceilings, tables, chairs, countertops, telephones, fixtures, glazed tile, toilets, urinals, sinks, shower rooms and locker room areas - any hard, non-porous washable surface where disinfection is required. This product’s non-dulling formula eliminates the time and labor normally required for rinsing. A potable water rinse is required for food contact surfaces. Do not use on glasses, dishes and utensils.

When used as directed at a 1:256 dilution (½ oz. per gallon of water), this product contains 660 ppm of active quaternary germicide making it highly effective against a wide variety of pathogenic microorganisms.

**Using approved AOAC test methods under Good Laboratory Practices, in the presence of 400 ppm hard water, 10% serum load and 10 minute contact time this product kills the following on hard non-porous inanimate surfaces:**

- Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica

See reference sheet for a complete list of organisms and additional directions for use.

This product can be applied by mop, sponge, cloth, paper towel, coarse trigger sprayer, auto-scrubber or foam gun. Change cloth, sponges or towels frequently to avoid redeposition of soil. For disinfection, all surfaces must remain wet for 10 minutes.

**DIRECTIONS FOR USE:**

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

- **For Use as a Non-Acid Bowl Cleaner/Disinfectant in Toilet Bowls and Urinals from Use-Dilution:**
  Pre-clean heavily soiled areas. Empty toilet bowls by forcing water through the trap. Apply Use Solution to exposed surfaces in toilet bowls and urinals. Swab entire surface area especially under the rim. Allow entire surface to remain wet for 10 minutes. Flush toilet or urinal and rinse swab applicator thoroughly.

- **For Use as a Non-Acid Bowl Cleaner/Disinfectant in Toilet Bowls from Concentrate:**
  Pre-clean heavily soiled areas. Add 3/8 oz. into toilet bowl for a 1:256 dilution. Swab entire surface area especially under the rim. Allow entire surface to remain wet for 10 minutes. Flush toilet and rinse swab applicator thoroughly.

- **For Use To Clean and Disinfect Shower Rooms, Locker Rooms and Other Large, Open Areas with Floor Drains:**
  Pre-clean heavily soiled areas. Apply Use Solution to floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for 10 minutes. Special instructions for foam guns: Pour concentrate into foam gun bottle and attach bottle to spray nozzle and ensure gun is attached to hose. Note: See foam gun instructions for more information. Make sure setting is set for a 1:256 dilution. Once in place, squeeze the handle to dispense foam solution. To disinfect, all surfaces must remain wet for 10 minutes. Scrub using a deck brush or other coarse material as necessary. Rinse surfaces thoroughly and let air dry.

**NOTE:** When cleaning floors position wet-floor signs around area to be cleaned. Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials.

- **To Kill Mold and Mildew (in 5% soil load):**
  Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces. Allow surfaces to remain wet for 10 minutes. Wipe surfaces and let air dry.

- **To Control Mold and Mildew:**
  Apply Use Solution to pre-cleaned hard, non-porous environmental surfaces. Allow to air dry. Repeat application weekly or when growth reappears.

- **To Kill Fungi:**
  Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces. Allow surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

- **To Sanitize Non-Food Contact Surfaces:**
  1. Pre-clean soiled hard non-porous surfaces.
  2. Apply this product until surface is thoroughly wet.
  3. Let stand 1 minute, then wipe.

  **NOTE:** Not for use on food contact surfaces or on food preparation areas.

See container label for First Aid, Precautionary Statements and complete Directions for Use.

EPA Reg. No. 70627-24

**References:**

- Reviews of Infectious Diseases (HIV-1) (associated with AIDS).
- SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST *HBV*, *HCV* and *HIV-1* ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.
- Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings as appropriate, must be worn during all cleaning of body fluids, blood, and decontamination procedures.
- **Cleaning Procedures:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of this product.
- **Contact Time:** Allow surface to remain wet for 1 minute to kill *HBV*, 5 minutes to kill *HIV-1*, 15 minutes to kill *HCV* and *HIV-1* for 10 minutes to kill all other organisms cited on the label.
- **Disposal of Infectious Material:** Blood and other body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

*Kills *HBV, *HCV and *HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of *Hepatitis B Virus* (*HBV*), *Hepatitis C Virus* (*HCV*) and *Human Immunodeficiency Virus Type 1* (*HIV-1*) (associated with AIDS).
