Seaguard® Ablative Anti-Foulant Coating is an advanced anti-foulant paint containing cuprous oxide for the prevention of barnacles, algae, coral, and other sessile marine fouling organisms. Recommended for the underwater surfaces of steel vessels operated in all coastal and oceanic waters.

**DIRECTIONS FOR USE:**
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**APPLICATION INSTRUCTIONS:** Stir thoroughly and apply to a clean dry surface with a temperature above the dew point. Apply over previous coating (examples: primer, sealer, antifouling paint) or according to the written painting specifications developed for the particular vessel. Film thickness (measured by a film thickness gauge) and the number of coats required to be applied depends upon vessel hull conditions, trading pattern, and desired extensions of painted surface service life. Allow at least 10 hours dry time between coats of this product at 70°F (21°C). Drying time is proportionally longer at lower temperatures. If toning is required for brush, roller, conventional spray or airless application, use R1K3 VM&P Naphtha. Equipment should be promptly cleaned with R1K3 VM&P Naphtha after use. The ship may be floated when final coat is dry for 72 hours. Prolonged exposure to the atmosphere may effect the properties of this product.

**PRECAUTORY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

**DANGER** Corrosion, Causes eye damage and skin irritation. Wear goggles or face shield, rubber gloves, and other protective clothing such as long sleeve shirt, long pants, and boots. Product may be fatal if swallowed, harmful if inhaled or absorbed through the skin. Product may be a dermal sensitizer, do not get in eyes, avoid contact with skin, eyes, or clothing. Avoid breathing vapor, mist, dust or fumes from sanding. Wear suitable with soap and water after handling and before eating or smoking. Use adequate ventilation. While spray painting or sanding boat surface, wear a respirator suit approved by the Mine Enforcement and Safety Administration and the National Institute of Occupational Safety and Health.

**ENVIRONMENTAL HAZARDS**

This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL CHEMICAL HAZARDS: FLAMMABLE**

Keep container closed, use with adequate ventilation. Store in a cool dry place away from heat, sunlight and open flame. Close container tightly after use. Do not use near heat or open flame.

Meets MACT for Shipbuilding/Repair under NESHAP regulations of the Clean Air Act Amendments of 1990, VOC/HAP VOC content (grams / liter) < 440

**STORAGE AND DISPOSAL**

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL**

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixtures, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by using label instructions, contact your State pesticide or environmental control agency, or hazardous waste representatives at the nearest EPA regional office.

**CONTAINER DISPOSAL**

Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.

**GENERAL**

Consult Federal, State, or Local disposal authorities for approved alternative procedures.

This labeling must be in the possession of the user at the time of pesticide application. While all Sherwin-Williams® products are developed and manufactured with the utmost care, we offer these products with the express understanding that the user will determine the suitability for his intended use and assume all risk and liability in connection therewith. If product is used other than as directed herein, we expressly disclaim any responsibility for its use, handling, storage, result obtained, injury or indirect or consequential damages of any nature whatsoever however caused. THERE ARE NO IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE FOR THIS PRODUCT. Sherwin-Williams® only obligation shall be to replace such quantity of product proved to be defective.

**FOR USE IN COMMERCIAL OR NAVY SHIPYARDS ONLY. FOR SALE FOR USE OR STORAGE BY PRIVATE APPLICATORS OR MARINE PERSONNEL. NOT FOR USE ON STATIONARY STRUCTURES.**

**FIRST AID**

**IF IN EYES:**

* Hold eye open and rinse slowly and gently with water for 15-20 minutes. *
* Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing. *
* Call a poison control center or doctor for treatment advice.

**IF ON SKIN:**

* Take off contaminated clothing. *
* Rinse skin immediately with plenty of water for 15-20 minutes.

**KEEPS OUT OF REACH OF CHILDREN.**
