GENERAL INFORMATION:

MOSQUITO BITS® is a highly selective microbial insecticide effective against mosquitoes in a variety of habitats. When spread over the containerized water surface the BITS release a biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. MOSQUITO BITS® may be used in all types of containerized standing water sites where mosquito larvae grow. The BITS will give a quick kill within 24 hours. For more residual long term control please use MOSQUITO DUNKS® after applying MOSQUITO BITS®.
