WEED LASER Weed Killer Spray

This product provides rapid knockdown and kill of most weeds and unwanted vegetation. Use around fence rows, parking lots, buildings, loading ramps, storage yards, tank farms, industrial plant sites. Use to kill weeds which interfere with drainage, cause a fire hazard, or create an ugly, unsightly appearance. Contains a soil stabilizer which will control weeds up to one year. CAN STAY UPSIDE DOWN ONLY.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Weed Control: To control most weeds for an extended period at time on noncropland areas, including parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites, apply 1 can per 65 sq ft.

To control annual weeds and grasses including foxtail, ryegrass, wild oats, crabgrass, crabgrass, broomcorn, ragweed, kochia, and medic, apply 1 can per 65–78 sq ft. For other hard-to-kill perennial weeds and grasses, such as Johnsongrass, saltgrass, bounding brome, fern, and horseweed, apply 1 can per 65 sq ft.

Remove protective cap. Throat can and point opening in spray tip towards weeds to be sprayed. Depress the tab on the side of tip and spray weeds thoroughly. Be sure to completely wet weeds. Use in late spring when most weeds have appeared. The amount needed will depend upon the area to be covered. As necessary, frequency of application will depend on soil type, rainfall and other conditions. One can will treat approximately 70 square feet. For Annual and Perennial Weeds, do not apply more than twice a year. Do not apply more than 2.0 lbs as per acre per application. The minimum retreatment interval is 30 days. For weeds, plants do not apply more than one application per year. Do not apply more than once per season per acre.

Entry Restrictions: Do not enter or allow people (or pets) to enter the treated area until dust has settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Spray Drift Management: A variety of factors including weather conditions (e.g., wind, direction, wind speed, temperature, relative humidity) and method of application can influence pesticide drift. The applicator must select all factors and make appropriate adjustments when applying this product.

Susceptible Plants: Do not apply under circumstances where spray drift may occur to food, storage or other plantings that might damage crops even when weaker winds for sale, use or consumption. Susceptible crops include lettuce, onions, strawberries, Tomatoes, beans, and other legumes, vegetables, ornamentals, sunflowers, tomatoes, beans and other legumes, and tobacco. Small amounts of spray drift that might not be visible may injure susceptible broadcast plants.

Other State and Local Requirements: Applicators must follow all state and local pesticide drift requirements regarding application of 2,4-D herbicides. Where states have more stringent regulations, they must be observed.

STORAGE AND DISPOSAL:

Do not comminate water, food, or feed by storage and disposal. Pesticide Storage: Do not store or store near heat or open flame. Pesticide Disposal: Do not handle, store, or process or mix with other pesticides or incompatibles. Store in a cool, dry, clean area in the original container. In trash or offer for recycling as available. If partly filled. Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

CONTAINS (CAS#): Aromatic Petroleum Hydrocarbons (64742-94-9), Propylene glycol (60676-66-8), Toluene (108-88-3), 2,4-Dichlorophenoxyacetic Acid (197-75-3), Bromate (1314-90-9).

HMIS Ratings: Health 2 – Flammability 3 – Reactivity 1 – Personal 8

FIRST AID

If in eyes:

• Hold eye open and rinse slowly and gently with water for 15–20 minutes.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.

• Call a poison control center or doctor for treatment advice.

If on skin or clothing:

• Take off contaminated clothing.

• Rinse skin immediately with plenty of water for 15–20 minutes.

• Call a poison control center or doctor for treatment advice.

If swallowed:

• Do not give any liquid to the person.

• Do not induce vomiting unless told to do so by the poison control center or doctor.

• Do not give anything by mouth to an unconscious person.

If inhaled:

• Have person to fresh air.

• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

• Call a poison control center or doctor for further treatment advice.

Inhalation: May cause an aspiration pneumonic hazard. Contains petroleum distillates.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE: Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and can harm invertabrates. Do not apply directly to water, to areas where surface water is present, or to intermittent areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms, water adjacent to treated areas. This chemical has properties and characteristics associated with chemicals already in groundwater. Use of this chemical on areas where soil are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a creek or well may result in saltwater intrusion. Do not apply to standing or moving water or groundwater. Drift or runoff may adversely affect aquatic invertebrates and non-target insects. Do not contaminate water when disposing of equipment washings and other contaminated materials. Do not store near fertilizers, seeds, insecticides or fungicides. Do not apply when ground is frozen. Drift may be carried to areas beyond those treated.

USERSAFETY REQUIREMENTS

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USERSAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, smoking, or using tobacco. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

All boilers, applicators, and other handlers must wear long-sleeved skin and long pants, shoes and socks, and chemical-resistant gloves made of barrier laminate or vinyl.
