PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

2PC

A long lasting Broad Spectrum Bactericide, and Fungicide for the Preservation of Adhesives, drilling additives, Metal Cutting Fluids and Coolants, Joint Cements, Resin Emulsions and Pigment Dispersions for Non-Paint Use.

ACTIVE INGREDIENT: Hexahydro-1,3,5-tris(2-hydroxyethyl)-s-triazine 78.5% INERT INGREDIENTS: 21.5%
TOTAL: 100.0%

FIRST AID

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
- Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

NOTE: May cause discoloration. Color stability in systems should be checked before use.

ENVIROMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SOLUBLE EMULSION, SYNTHETIC AND SEMI-SYNTHETIC CUTTING FLUIDS AND COOLANTS

2PC should be used at a dilution of 0.15%.
For best results, drain and clean the system before adding fresh cutting fluid. Add 0.15% of 2PC to the use dilution (1.2 pints per 160 gallons of diluted cutting fluid). 0.15% of 2PC should be added to the use dilution of the make-up fluid.

For all other uses (Adhesives, drilling additives, joint cements, pigment dispersions and resin emulsions for non-residential use) use levels from 0.1-0.3% based on the total weight of the formulation. 2PC should be added to the latter phase of the manufacturing process. It should not be exposed to temperatures exceeding 125°F (52°C) for prolonged periods of time. Further it is not suitable for systems with a pH below 7. 2PC may also be used to control microbial growth at the air-water interface of paint manufacturing raw material storage tanks. A 1.0% aqueous solution of 2PC may be sprayed over the surface. Care should be taken to avoid removal of this interface in paint production.

NOTE: May cause discoloration. Color stability in systems should be checked before use.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Store in original container.
Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
