**ACTIVE INGREDIENTS:**

Poly(2-chloroethylenedimethylamine/2-chloroethylenedimethylamine) ethane dichloride (ethane dichloride) .................................................. 15.0%

**INERT INGREDIENTS** ............................................................. 85.0%

**Total** .................................................................................. 100.0%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION:**

**FIRST AID**

If Swallowed

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water, if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in Eyes

- Take off contaminated clothing.
- Rinse eyes immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

If in Skins, Clothes

- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for further treatment advice.

**HOT LINE NUMBER**

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also contact INFORTRAC at 1-800-635-5853 for emergency medical treatment information.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wear long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves made of any waterproof material (such as any waterproof material, such as Barri* Laminate, Butyl Rubber, Nitrile Rubber, Neoprene Rubber, Polyethylene, Polyvinyl Chloride (PVC) or Viton).

**USER SAFETY REQUIREMENTS:*** Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exists, use detergent and hot water.

**INSTRUCTIONS**

- Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched (except as required by directions for use) or heavily contaminated with this product's concentrate. Do not reuse these.
- PERSONAL PROTECTIVE EQUIPMENT (PPE): Wear protective eyewear (goggles or face shield). Wear long-sleeved shirt and long pants, shoes, socks, chemical-resistant apron and chemical-resistant gloves such as any waterproof material, such as Butyl Laminante, Butyl Rubber, Nitrile Rubber, Neoprene Rubber, Natural Rubber, Polyethylene, Polyvinyl Chloride (PVC) or Viton.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish, aquatic organisms and algae. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE**

This is a violation of Federal law to use this product in a manner inconsistent with the labeling.

This product is used to control the growth of algae in decorative fountains that do not contain fish. It is also used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers and recirculating cooling systems.

**WATER COOLING TOWERS:** Prior to the use of this product in water cooling towers, clean the systems to remove sludge growth, microbial biological slime, and other deposits. Then make an initial slug addition of 4 to 10 fluid ounces of this product per 1000 gallons of water to provide 32 to 80 ppm of this product, based on the total weight of water in the system. Repeat initial dosage until control is evident. Make subsequent slug additions of 1.0 to 10.0 fluid ounces of this product per 1000 gallons of water (8 to 80 ppm) every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of biofouling and severity of the biological problem. Make slug additions into the sump of the water cooling towers.

**DECORATIVE FOUNTAINS:** This product is used to control the growth of algae in decorative fountains that do not contain fish. Manually clean heavy growths of algae prior to treatment. Fountains with just visible algae growth require an initial dose of 8 to 10 fluid ounces of this product per 1000 gallons of water. To treat a freshly cleaned and filled fountain, add 3 to 4 fluid ounces of this product per 1000 gallons of water. For maintenance dosages, add 1 1/2 to 2 fluid ounces of this product per 1000 gallons of water every 5 to 7 days as needed. Make sure this product is added at a point where it can be uniformly distributed. This product may be used in fountains treated with chlorine chemicals, but do not mix the product with concentrated dry or liquid chlorine products.

**INDUSTRIAL AIR WASHING SYSTEMS:** This product is used to control bacteria in industrial air washing systems that maintain effective mist eliminating components. Prior to its use, clean the systems to remove bacterial slime and other deposits. Make an initial slug dose of 14.8 to 24.7 fluid ounces of this product per 1000 gallons of water. Repeat initial dosage until control is evident. Make subsequent slug additions of 10.1 to 24.7 fluid ounces of this product per 1000 gallons of water every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of biofouling and severity of the bacterial problem. Make slug additions into the sump or into the water collection trays of the airwash system.

**Storage and Disposal**

(Refillable Plastic Containers, capacity of 55 gallons or less)

Do not contaminate water, food or feed by storage or disposal. Do not mix with Food, Feed, Drugs or Clothing.

**STORAGE:** Keep container closed when not in use. In case of spills, use sawdust or sand to absorb the spilled pesticide and dispose of in a sanitary landfill.

**PESTICIDE DISPOSAL:** Pesticide wastes may be hazardous, improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pest or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Clean the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

To clean the container prior to refilling or disposal, use a triple rinse wash as follows: Empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10 percent full with water. Agitate vigorously. Poor or pump rinse into application equipment or a mix tank or store rinse for later use or disposal. Repeat this rinsing procedure two more times.

Manufactured by: Watercare Industrial Services, Inc. 3755 Truman Street Washougal, WA 98671 303-635-7264
