DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INTRODUCTION: STRIKE® Pellets are a unique product that controls filter flies (Psychoda spp.), midges (Chironomidae), and other nuisance aquatic insect species infesting waste water facilities. STRIKE® Pellets contain an Insect Growth Regulator (IGR) that is effective on the developing stages of insect pests. STRIKE® Pellets do not kill adults but affects the larval stages as they grow and develop. STRIKE® Pellets stop the formation of pupae of insect pests, thereby eliminating adult populations. STRIKE® Pellets stop the cycle of reproduction, keeping pest infestations under control. Continuous use of the product prevents these pests from rebounding into unmanageable infestations.

GENERAL DIRECTIONS: STRIKE® Pellets release effective levels of an Insect Growth Regulator for up to 30 days under typical environmental conditions. Continue treatment through the last two weeks of the season. Treated larvae continue to develop normally to the pupal stage where they die.

NOTE: This insect growth regulator has no effect on midges or filter flies which have reached the pupal or adult stage prior to treatment.

APPLICATION SITES AND AREAS:
- Use lower application rates when water is shallow, vegetation and/or pollution are minimal, and insect populations are low. Use higher rates when water is deep (>2 ft), vegetation, pollution, and/or organic debris or water flow are high, and insect populations are high. In instances of high organic debris and water flow, residual activity may be diminished.

FILTER FLY / MIDGE HABITAT

FILTER FlIES AND MIDGES ARE WASTE WATER TREATMENT PLANTS INFESTING SLUDGE DRIVING BEDS, CLARIFIERS, HOLDING TANKS OR PONDS, SEWAGE LAGOONS, EVACUATION PONDS,紙 OR FOAM WASTE PONDS, STEGMANN OR STANDING WATER, OR OTHER AREAS OF WASTE WATER TREATMENT FACILITIES WHERE MIDGE, FILTER FLIES, AND OTHER NUISIBLE AQUATIC INSECT PESTS ARE A PROBLEM.

APPLICATION METHODS:
- Midge: Apply STRIKE® Pellets up to 15 days prior to flooding, or at any stage of larval development after flooding or in permanent waste waters. Fixed wing aircraft or helicopters equipped with granular spreaders capable of applying rates from 5 to 10 lb/acre may be used to apply STRIKE® Pellets. Pellets may also be applied using ground equipment which will achieve good, even coverage at the above rates.

Waste Water Nuisance Pests:
- For applications to solid waste, including sludge and retention ponds, the initial high rate of 10 lb/acre immediately following filling of the drying beds, apply the product uniformly to the surface of the bed. Application of STRIKE® Pellets to solids will prevent the emergence of adult insect pests thereby keeping infestations under control.

For applications in aquatic habitats, including waste water treatment facilities, evacuation ponds, sewage lagoons, mass storage areas, retention ponds, and holding tanks, apply STRIKE® Pellets as uniformly as possible over the entire surface. In situations where the ponds are large, applications made around the perimeter of the ponds can be helpful in reducing pests. In these situations, apply up to a 20 foot band cut from the bank around the pond perimeter.

CENTRAL
Zocon®

STRIKE®
Prevents Nuisance Midge and Filter Fly Emergence Controls Waste Water Nuisance Pests

ACTIVE INGREDIENT:
- (I-Methoprene (CAS# 65723-18-8)) 42.5%

OTHER INGREDIENTS:
- 56.75%

TOTAL:
- 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See Additional Precautionary Statements

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Store closed containers of STRIKE® Pellets in a cool, dry place. Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS:
- HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- CAUTION
- Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID:
- Call a poison control center or doctor for treatment advice.
- If in eyes: Hold open eye and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- If on skin or clothing: Wash off contaminated clothing. • Remove skin immediately with plenty of water for 15-20 minutes.

ENVIRONMENTAL HAZARDS:
- Do not contaminate water when disposing of residue or equipment washwater.

WARRANTY AND CONDITIONS OF SALE: Seller makes no warranty, expressed or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
