SPRAY DISINFECTANT • SPRAY BEFORE USING

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.
This product is not to be used as a terminal/sterilant/disinfectant on any surface or instrument that (1) is introduced directly into the human orifices or is in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate critical or non-critical medical devices prior to sterilization at high-level disinfection.

*Note: Kills 90.0%, Pseudomonas aeruginosa (strain), Klebsiella pneumoniae (K. pneumoniae), Escherichia coli, Campylobacter jejuni and Salmonella enterica on hard, inanimate surfaces in 10 minutes.
Kills N. F. 1-5274 (KM-2O) on pre-cleaned environmental surfaces/objects previously soiled with blood and body fluids in healthcare settings or other settings in which there is a risk of shedding of virulent pathogens/organisms with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIGH LEVEL DISINFECTANTS/OBJECTS SOILED WITH BLOOD AND BODY FLUIDS

PERSONAL PROTECTION: Wear a chemical-resistant glove. Avoid contact with the eyes and skin. Avoid breathing of spray mist. Avoid contamination of foodstuff. Use only in accordance with the labeling. Use only in accordance with the labeling.
