PRINCIPAL FUNCTIONING AGENTS:
Polymeric terpenes 96.0%

CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS:
TOTAL: 4.0% 100.0%

Ingredients exempt from tolerance under 40 CFR 180.910
This shield reduces the effects of environmental factors, which may decrease the effectiveness of pesticides.

KEEP OUT OF REACH OF CHILDREN

CAUTION
Read Entire Label Before Using This Product
SHAKE WELL BEFORE USING

Net Contents: 2.5 Gals.

FIRST AID
IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Have the person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious or convulsing person.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PRECAUTIONARY STATEMENTS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wear chemical-resistant gloves, long-sleeved shirt and long pants, shoes and socks. Wash thoroughly with soap and water after handling. Observe all use precautions and limitations on the label(s) used in the tank mixture. The more restrictive/protective requirements must be followed.

In case of emergency call CHEMTREC: (800) 424-9300

GENERAL INFORMATION
PINENE II is an extender and sticker designed to extend the life of pesticides. It may be used with all pesticide products and soluble fertilizers. This product forms a durable film that holds a pesticide on the crop foliage. This shield reduces the effects of environmental factors, which may decrease the effectiveness of pesticides.

NOT FOR AQUATIC USE. This product will not foam, or clog nozzles. It may be applied by aerial, ground or concentrate sprayer. It enhances the initial pesticide application to give complete coverage. This product prevents the removal of the pesticide from the leaf surface by rainfall and wind. It screens the pesticide spray residue from ultraviolet rays which often cause pesticide degradation. Pesticide volatilization is minimized by the protective shield.

Under most conditions, apply sprays containing this product and allow at least one hour of daylight before an anticipated rain. Sunlight for this time period is required for the protective shield to set.

DIRECTIONS FOR USE
To extend the activity and increase the efficiency of insecticidal and fungicidal sprays when applied by aircraft or ground equipment: Use 1 pint of this product per acre.

Hydraulic gun or air blast sprayer applications to Shade, Fruit and Nut trees (dilute): Use 6 to 8 fluid ounces of this product per 100 gallons of water.

Dilute application of Citrus sprays when spray volume is 1,000 to 1,500 gallons per acre: Use 2 pints of this product per 500 gallons of spray mix.

Concentrate sprays when spray volume is approximately 100 gallons or less per acre: Use 1 pint of this product per acre.

Vegetable and Cotton programs: Use 4 to 16 fluid ounces of this product per acre.

Turf applications: Use 2 pints per acre on Pears prior to cluster bud in no less than 200 gallons of water.

To extend the activity and increase the efficiency of insecticidal and fungicidal sprays when applied by aircraft or ground equipment: Use 1 pint of this product per acre.

Manufactured By:
Drexel Chemical Company
P.O. BOX 13327, MEMPHIS, TN 38113-0327
SINCE 1972

PINENE II is a trademark of Drexel Chemical Company.
Note: Use of this product with tolerance exempt pesticides close to harvest may result in visible residues on crops which may render the crops unsalable. If this is a potential problem, the rate of this product should be reduced or this product should not be used close to harvest. Do not apply to food crops within 30 days of harvest, when *Bacillus thuringiensis* products are combined in the spray tank with other insecticides.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **PRODUCT STORAGE:** Protect from freezing temperatures. Store above 40°F. Store in original container only. Keep container tightly closed, do not allow water to be introduced into contents of this container.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

### WARRANTY—CONDITION OF SALE

OUR RECOMMENDATIONS FOR USE of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall the Manufacturer or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product when such use and/or handling is not in strict accordance with directions given herewith. The foregoing is a condition of sale by the Seller and is accepted as such by the Buyer.
