READ THIS LABEL: Read the entire label and follow all directions and use precautions. Use only for the uses, pests, and applications methods described on this label.

IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help prevent accidents:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to vandalism. These areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

PRODUCT INFORMATION:

ACTIVE INGREDIENT: Bromethalin (CAS #63333-35-7): .01%

OTHER INGREDIENTS*: .999%

TOTAL: 1.00%

TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

Precautionary Statements:

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets. Apply this product with care to prevent accidental or excessive exposure to humans or domestic animals. Do not place this product in areas where children and domestic animals will have access to it. Do not induce vomiting unless told to do so by the poison control center or doctor.

DIRECTIONS FOR USE

Caution: Follow all directions and use precautions. This product is intended for use by professional pest control personnel. Do not sell this product in individual containers holding less than 4 pounds of bait.

SELECTION OF TREATMENT AREAS:

Determine areas where rats or mice will most likely feed and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

Baiting Strategy:

Apply 1 place pac per bait placement. Space placements at intervals of 8 to 12 feet in infested areas. Replace contaminated or spoiled bait immediately. Using gloves, collect and properly dispose of the waste. Dispose of empty container by placing in trash or delivering to an approved disposal facility.

WARRANTY:

To the extent consistent with applicable law, seller makes no warranty, expressed or implied, in respect of the product, the use thereof or the results therefrom. The seller shall not be liable for any special or consequential damages. The use of this product, or any part thereof, must be in accordance with the directions and use precautions set forth on the label, and with the laws and regulations of the state, county or municipality where the product is to be used.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this product may be placed in trash or delivered to an approved disposal facility. Do not contaminate water when disposing of equipment wash water or rinsate. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

PESTICIDE STORAGE:

Store only in original container in a cool, dry place inaccessible to children and pets. Keep container closed and away from other chemicals. Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by improperly disposing of bait. DO NOT APPLY DIRECTLY TO WATER, OR TO AREAS WHERE SURFACE WATER IS PRESENT OR TO AREAS BELOW THE HIGH TIDE MARK. Full swing may be hazardous to aquatic organisms in water adjacent to treated areas.

ENVIRONMENTAL HAZARDS:

The product is extensively toxic to birds and wildlife. Do not apply this product to areas where surface water is present or to areas below the high tide mark. Placement of this product may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

TREATMENT FOR PET
POISONING
If an animal eats this bait, call
a veterinarian at once.

NOTE TO PHYSICIAN OR
VETERINARIAN
Contains the nerve poison
Bromethalin. This product is
not an anticoagulant type
rodenticide. For humans or
animals ingesting bait and/or
showing poisoning signs
(such as muscle tremors,
loss of hind limb use, or
seizures for animals), limit
absorption by either emesis
or gastric lavage. Sublethal
symptoms, if present, would
be the result of cerebral
edema and should be treated
accordingly through admin-
istration of an osmotic
diuretic and corticosteroid.
