Kills Anticoagulant Resistant Norway Rats, Roof Rats & House Mice

Cease Feeding After Consuming A Toxic Dose

With Bromethalin

Palatable Formulation

This Product May Only be Used Inside and Within 100 Feet of Man-Made Structures

KILLS RATS, MICE & MEADOW VOLES*

ACTIVE INGREDIENT:
Bromethalin (CAS #63333-35-7): .................. 0.01% 
OTHER INGREDIENTS*: .................. 99.99%
*Contains Denatonium Benzoate

TOTAL 100.00%

NET WT. 4 lbs (1.8 kg)
121 x 0.53 oz (15 g) Place Pacs

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panels for First Aid and additional precautionary statements.

EPA REG. NO. 12455-97-3240   EPA EST. NO. 12455-WI-1

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat

KEEP OUT OF REACH OF CHILDREN
READ THIS LABEL: Read this entire label and follow all directions and use precautions. Use only for the sites, pests, and application methods described on this label.

TREATMENT FOR PET POISONING

1. An animal that has eaten this product will require medical care. Consult a veterinarian immediately.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sub lethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of a non-specific diuretic and oxygenation.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read this label! Read this entire label and follow all directions and use precautions. Use only for the sites, pests, and application methods described on this label.

IMPORTANT:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations are often referred to as bait stations. Bait that is not stored in tamper-resistant bait stations may present a hazard to children and/or domestic animals by ingestion. Children and domestic animals may be attracted to the bait by the attractive nature of the rodent problem. These stations may be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears or other potentially destructive animals, or in areas prone to vandalism.
3. Do not apply this product in areas where it can enter storm drains, sewers, or other storm water disposal systems.
