KILLS RATS, MICE & MEADOW VOLES

Net Weight: 4 lbs (1.8kg) 121 x 0.53 oz (15 g) Place Pacs

ACTIVE INGREDIENT: Bromethalin (CAS #63333-35-7): 0.01%
OTHER INGREDIENTS*: 99.99%
†Contains Denatonium Benzoate TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back panels for First Aid and additional precautionary statements.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat
2. Do not expose children, pets, or nontarget animals to rodenticides. IMPORTANT: Use only for the sites, pests, and application methods described on this label.

READ THIS LABEL:

• Have person sip a glass of water if able to swallow.

IF SWALLOWED:

Contains the nerve poison Bromethalin. This product is not an anticoagulant type poison. Do not use on waterfowl, water, or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water, livestock, raccoons, bears or other potentially destructive animals, or in areas prone to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If a bait is eaten by children when they are lifted, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears or other potentially destructive animals, or in areas prone to vandalism.

Do not dispose of container and unused, spoiled or unconsumed bait as specified on this label. Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, non-target mammals or birds may have access to the bait placement location.

Use RESTRICTIONS: This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse* (Reithrodontomys humulis), Golden mouse* (Ochotona nuttalli), Polynesian rat* (Rattus exulans), Eastern harvest mouse*, and Mexican woodrat* (Neotoma micropus) and Mexican woodrat* (Neotoma lepida). This product must be used in and within 100 feet of the source of infestation is present, establish permanent bait stations and replenish them as needed.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling product. Wash the outside of gloves before removing them. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat

TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

IT IS ILLEGAL TO SELL THIS PLACE PAC INDIVIDUALLY

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Palomar mouse, Meadow vole, White-striped woodrat, Southern plains woodrat, and Mexican woodrat
