STICK-IT
Extender-Sticker

INGREDIENTS
Principal Functioning Agent
Pinene Polymers ................................................................. 80.0%
Constituents ineffective as spray adjuvants .................. 20.0%
Total ............................................................................ 100.0%

DANGER
Harmful if swallowed. Causes skin irritation and serious eye damage.

PRECAUTIONARY STATEMENTS
Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.
For specific treatment, please see Safety Data Sheet.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.
IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.
IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.

GENERAL INFORMATION
Stick-It is a proprietary blend of terpene polymers and emulsifiers designed to be used with pesticides and soluble fertilizers. This unique chemistry causes Stick-It to form an elastic film that keeps the enclosed chemicals in contact with the plant surface. This film reduces pesticide and nutrient loss and often enhances activity of those chemicals. In addition, the Stick-It film improves retention of pesticides and foliar feeds on plant surfaces even during rain or sprinkler irrigation.

Stick-It is not for aquatic use.
In all cases it is recommended that a JAR TEST FOR COMPATIBILITY be conducted, mixing each product in the same ratios as to be field applied.

DIRECTIONS FOR USE
To improve the activity and efficiency of pesticidal sprays, apply 4 to 6 ounces of Stick-It per acre.
To improve the absorption and retention of foliar fertilizers, apply 4 ounces of Stick-It per acre.
For use in air blast sprayers or hydraulic gun sprayers, apply 4 to 8 ounces of Stick-It per 100 gallons of water.
For vegetable crops, apply 4 to 6 ounces Stick-It per acre.
Note: Do not apply to food crops within 30 days of harvest except as follows: Stick-It can be used with copper fungicides, Bacillus thuringiensis products and other tolerance exempt pesticide on food crops up to harvest.
Use of Stick-It with these exceptions may result in visible residues on crops which may render the crops unsellable.

MIXING INSTRUCTIONS
Fill the spray tank half full with water, then add other desired components to the tank while agitating the mixture. Premix Stick-It with more water and add while the tank continues to fill. Agitate mixture continuously while the tank is filling. Use clean water to rinse spray equipment immediately after spraying. Though some residue may remain in the tank, it will help prevent rusting and corrosion and will not clog nozzles next time the sprayer is used.

USE PRECAUTIONS
Hazardous to humans and domestic animals.
Do not apply this product to non-target surfaces and do not allow spray to drift. Permanent damage may occur on porous surfaces. On non-porous surfaces, remove spray immediately with soap and water while the spray deposit is still wet. Dried deposits on painted car surfaces can be removed using standard tar remover products designed for use on cars.
Do not apply when the weather is hot, windy, or wet. Apply only when you are certain that the application will give you the desired result.
Do not allow spray drift or rinse water from spray tank to contaminate surface waters.

STORAGE AND DISPOSAL
Store in original container only. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option for container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may be disposed of in a sanitary landfill. Dispose of contents/container to an approved waste disposal plant.

CONDITION OF SALE
Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions to the extent consistent with applicable law.

KEEP OUT OF THE REACH OF CHILDREN
SHAKE WELL BEFORE USING

Manufactured by Northwest Agricultural Products, LLC
1001 Winstead Drive, Suite 480, Cary, NC 27513
