SPA AND HOT TUB SANITIZER
When used as directed, this product is effective as a spa and hot tub sanitizer and disinfectant.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with pre-cautionary statements and directions.

Ensure all equipment is working properly. Clean or vaccum. Follow manufacturer’s directions. Adjust pH to between 7.2-7.8. When using other products as outlined in directions for this product, always follow directions on those products. Fill bromine feeder with this product and adjust feeder following manufacturer’s directions to yield bromine residual between 2-4 ppm in residential spas and 4-6 ppm in commercial spas. Check feeder regularly and add additional product as needed to maintain the bromine residual. The pump and filter should be operated for at least three hours daily whether spa is in use or not. Do not heat water above spa manufacturer’s recommended maximum temperature. Keep the spa free of leaves and other debris. To maintain clear, clean water, and ensure the performance of your spa chemicals, spa should be drained and refilled with fresh water every 30 days in residential spa or every 90 days in commercial spas. Re-entry into treated spas is prohibited above levels of 8 ppm bromine due to risk of body injury.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not contaminate food or feed by storage or dispensing. CONTAMINATION DISPOSAL: Nonhazardous container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (3 equivalent) promptly after emptying.
