PRO GUARD
MULTI-PURPOSE SHOCK
Oxidizer, buffer, clarifier and flocculent

NOT FOR RESALE

ACTIVE INGREDIENT: Sodium dichloro-s-triazinetrione.......................... 58.2%
OTHER INGREDIENTS................................................................. 41.8%
TOTAL INGREDIENTS.................................................................. 100.0%
U.S. Patent #: 5,670,099

KEEP OUT OF REACH OF CHILDREN

DANGER (See back panel for additional precautionary statements.)

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take all contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the-product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

Note to Physicians: Probable mucosal damage may contraindicate the use of gastric lavage.

NET WEIGHT: 25 Lbs. (11.3 Kg)
SWIMMING POOL OXIDIZER: This product is a premium, multi-purpose product. By simply using this product once or twice a week, it will reduce eye irritants and unpleasant odors. In addition, it corrects most cloudy conditions and reduces water sparkle. Unlike other shock products, this product does not adversely affect the pH of pool water and leaves no cloudy residue. Swimmers can resume pool use in as little as 15 minutes after application. (Check the chlorine residual. Swimming may resume when residual is 1 - 4 ppm.) It can be used with all types of pool surfaces. Additional unique ingredients such as water clarifiers and flocculants aid the filter in removing small suspended particles to further enhance water clarity.

This product is compatible for use in pools with chlorinated products, brominated products, ozone, and can also be used with ionizers. This product dissolves quickly and completely. It does not require pre-mixing and leaves no undissolved solids. (In water temperatures less than 50°F, this product may take longer to dissolve. To prevent possible damage to pool surface, use a pool brush to disperse any granules which may have settled to the bottom of the pool.) Do not use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate Pro Guard product specifically formulated for these purposes.

⚠️ DO NOT mix this product directly with any other shock products or pool chemicals as violent reactions could occur. This product must be applied from the bottle directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

With the pump in operation, apply the entire dosage at one time. Broadcast evenly around edges with special attention to areas of the pool where water circulation is the poorest. Apply directly to pool water only. Do not add through a skimmer or any automatic dispensing device.

For best results, test and adjust pool water pH to 7.2-7.6 prior to application. Apply product when pool is not in use. Swimming may resume in as soon as 15 minutes after product application. Test chlorine residual. Swimming may resume when chlorine residual is 1 - 4 ppm.

ROUTINE MAINTENANCE: To help maintain a sparkling clear pool, add one pound of product to 12,000 gallons of water each week.

ADDITIONAL APPLICATIONS: Additional applications are recommended after periods of heavy pool usage, significant rainfall or the appearance of cloudy water. Follow routine maintenance instructions.

OFF SEASON MAINTENANCE: Pools which are kept circulating during the winter season require less frequent additions. Apply product approximately once each month at the rate of one pound of product to 12,000 gallons.

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. REENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards.

CONTAINER DISPOSAL: Properly empty container thoroughly. Discard in trash. Do not reuse container.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage. Do not breathe dust; may be harmful if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling product. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reuse container. Isolate container in open air or well-ventilated area. Flood container and area with large volumes of water. In case of spills, scoop up and place product in pool water, then flush spilled area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
