DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SHAKE WELL BEFORE USE. KEEP CONTAINER UPRIGHT. Do not apply directly to food. Do not use in food/feed areas of food/feed handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas where prepared foods are served such as dining rooms, but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed foods should be covered or removed. Non-food areas are areas such as garbage rooms, laundry, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after cleaning or baking).

Remove pets, birds, and cover fish aquariums before spraying.

DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room of 6 ft. X 5 ft. or smaller; instead, allow fog to enter from other rooms. Turn off ALL ignition sources such as pilot lights (but not gas valves), other open flames or running electrical appliances that cycle on and off (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights. Cover exposed food, dishes and food-handling equipment. Open cabinets and doors to allow for proper evaporation. Set off lights and air conditioners. Close doors and windows. Point valve away from doors and eyes when releasing. Use one unit for each 6,000 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

10 OVER-EXP. VALUE. Air lock valve in open position for automatic discharge, press the valve button all the way down, check the catch. Then place fogger on stand or table in the center of the room with valve locked open, plucking several layers of newspaper or pad under fogger. Leave building at once and keep building closed for two hours before airing out. Open all doors and windows and allow to air for 30 minutes. Repeat spraying in two weeks or when necessary.

Insects and Ticks: Destroy pets’ old bedding and replace. Use production as above. Treat dogs and cats with registered tick control product prior to re-entry.

EPA Reg.No 1021-1558-4313 EPA Est. No. 4313-TX-1
