Germicidal Detergent Sanitizer

ACTIVE INGREDIENT:
SODIUM HYPOCHLORITE 12.5% 

INSERT INGREDIENTS:
TOTAL:

DIRECTIONS FOR USE

For use in areas where water hardness is less than 10 grains per gallon. For more information on how to determine the hardness of your water, please contact your local water treatment facility.

PREPARATION OF SOLUTION:

To prepare a solution of 100 ppm available chlorine, mix 1 part of this product with 99 parts of water. For more information on how to determine the concentration of available chlorine, please contact your local water treatment facility.

SAFE HANDLING INSTRUCTIONS:

To avoid exposure to眼睛 or respiratory tract irritation, wear appropriate protective clothing, including a respirator with a high-efficiency particulate air (HEPA) filter, and gloves. Avoid contact with眼睛, mouth, and skin. If skin contact occurs, wash with soap and water. If eyes are irritated, flush with large amounts of water. If swallowed, induce vomiting and seek medical attention immediately. Keep out of reach of children.

STORAGE AND DISPOSAL:

Keep out of reach of children. Store in a cool, dry place, away from food and drink. Do not use on food contact surfaces. Return unused product to the manufacturer or a licensed waste management facility.

DOT SHIPPING NAME:
UN1791

Hypochlorite solutions, 8, PG III

Manufactured by: WESTAgro
Kanalco, CDO, 6010-1266
MADE IN USA

7406

REFERENCES:

For the correct dilution rate, please consult your local water treatment facility.

SUGGESTED DILUTION:

For soft water, a dilution of 1 part of this product with 9 parts of water is recommended. For hard water, a dilution of 1 part of this product with 2 parts of water is recommended.

STORAGE:

Store in a cool, dry place, away from food and drink. Keep out of reach of children.

DISPOSAL:

Return unused product to the manufacturer or a licensed waste management facility. Do not use on food contact surfaces. Return unused product to the manufacturer or a licensed waste management facility.

NOTES:

This product is a germicidal detergent sanitizer. It is intended for use in areas where water hardness is less than 10 grains per gallon. For more information on how to determine the concentration of available chlorine, please contact your local water treatment facility.
