Some materials that are chemical-resistant to this product are listed below. For more options, follow the instructions for Category H on the chemical-resistance category selection chart. PPE constructed of Saranex, neoprene, and chlorinated polyethylene provide short-term contact or splash protection against liquid in this product. Longer-term protection is provided by PPE constructed of Viton, Teflon, and EVAL barrier laminates (for example, responder suits manufactured by Life-Guard or Silvershield gloves manufactured by North). Where chemical-resistant materials are required, use covers, or cotton or canvas protective clothing. Protection from this product and must not be worn as the sole article of protection when contact with this product is possible.

When performing tasks with NO potential for contact with liquid fumigant, all handlers (including applicators) must:

- Wear long-sleeved shirt, long pants, shoes and socks.
- Not wear jewelry, goggles, tight clothing, chemical-resistant gloves, rubber protective clothing, or rubber boots when handling. Methyl bromide can be trapped inside clothing and cause skin injury.

Handlers with no potential for contact with liquid fumigant (e.g. shovelers) may wear cotton, leather, or other porous, non-chemical-resistant gloves. If such gloves are exposed to liquid fumigant, they must immediately be removed and discarded.

When performing tasks with potential for contact with liquid fumigant, all handlers (including applicators) must wear:

- Long-sleeved shirt and long pants.
- Chemical-resistant gloves.
- Chemical-resistant apron.
- Protective eyewear (Do NOT wear goggles), and
- Chemical-resistant footware with socks.

In addition, when an air-purifying respirator is required under this label's Directions for Use, Protection for Handlers, Respiratory Protection and Stop Work Triggers section, handlers (including applicators) must wear a respirator certified to NIOSH #8242.

A NIOSH-certified full-facepiece air-purifying respirator with cartridges certified by the manufacturer for protection from exposure to methyl bromide at concentrations up to 5 ppm (e.g., a 3M air-purifying respirator equipped with 3M Model 600 Organic Vapor/Acid Gas/P100 cartridges). IMPORTANT: A self-contained breathing apparatus (SCBA) is not permitted for routine handler tasks. If responding to an emergency when corrective action is needed to reduce air concentrations to acceptable levels, wear an SCBA. Escape-only SCBA respirators must not be used by handlers for responding to emergencies. In addition wear PPE required for potential contact with liquid fumigant.

**EMERGENCY PHONE NUMBER:** Chemtrec, 1-800-424-9300

See label booklet for additional Precautionary Statements.

**NOTICE:** Contains methyl bromide, a substance which harms public health and the environment by destroying ozone in the upper atmosphere.

### RESTRICTED USE PESTICIDE DUE TO ACUTE TOXICITY

**For retail sale to and use by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator’s certification.**

**Tri-Con 45/55 Pre-Plant Soil Fumigant**

**ACTIVE INGREDIENTS:**

- Chloropicrin ............................................... 54.7%
- Methyl Bromide .......................................... 45.0%
- OTHER INGREDIENTS* .................................. 0.3%

**TOTAL:** 100.0%

**KEEP OUT OF REACH OF CHILDREN**

**FIRST AID**

Inhalation:

- **If Inhaled:**
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
  - Call a poison control center or doctor for further treatment advice.

Swallowing:

- **If Swallowed:**
  - Call a poison control center or doctor immediately for treatment advice.
  - Have person sip a glass of water if able to swallow.
  - Do not induce vomiting unless told to do so by a poison control center or doctor.
  - Do not give anything by mouth to an unconscious person.

Skin:

- **If On Skin or Clothing:***
  - Take off contaminated clothing.
  - Wash hands and face with soap and water.
  - Rinse off any visible contaminant. Be sure to wash areas under fingernails and other body crevices.
  - Call a poison control center or doctor for treatment advice.

Eyes:

- **If In Eyes:**
  - Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
  - Call a poison control center or doctor for treatment advice.

**NOTE TO PHYSICIAN**

Early symptoms of overexposure to methyl bromide are dizziness, headache, nausea and vomiting, weakness, and collapse. Lung edema may develop in 2 to 48 hours after exposure, accompanied by cardiac irregularities; these effects are the usual cause of death. Repeated overexposures can result in blurred vision, staggering gait, and mental imbalance, with probable recovery after a period of no exposure. Blood bromide levels suggest the occurrence, but not the degree, of exposure. Treatment is symptomatic.

**DIRECTIONS FOR USE Restricted Use Pesticide**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift, unless specifically permitted by the label. It may be in the application block from the start of the application until the entry restricted period ends, and in the buffer zone during the buffer zone period. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

**Agricultural Use Requirements**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR 170. Refer to label booklet under “Agricultural Use Requirements” in the Directions for Use section for information about this standard.

**Storage and Disposal**

**Pesticide Storage:** Store out of reach of children, in a well-ventilated area under lock and key, Post as a pesticide storage area.

**Pesticide Disposal:** Pesticide waste is toxic. Improper disposal of excess pesticides, containers, or chemical waste or material in the environment by destroying ozone in the upper atmosphere.

- Do not contaminate water, food, or feed by storage or disposal.
- DO NOT CONTAMINATE WATER, FOOD, OR FEED.
- Return of Containers:
  - Cylinders are the property of the registrant or distributor and must be returned promptly after use. Do not ship cylinders without safety cap and valve protection bonnet when shipping containers.
  - Reusable cylinders:
    - Store cylinders upright, secured to a rack or wall to prevent tipping. Do not subject cylinders to rough handling or mechanical shock such as dropping, bumping, dragging, or sliding. Do not use rope slings, hooks, tongs or similar devices to handle cylinders. Transport cylinders using hand truck, fork truck or other device to which the cylinder can be firmly secured. Do not remove valve protection bonnet and safety cap until immediately before use. Replace safety cap and valve protection bonnet when cylinder is not in use.
  - Refillable Container:
    - Only the registrant or distributor is allowed to refill this container.
    - This container can be refilled with pesticide only. Do not reuse this container for any other purpose.
    - Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.
    - Container Disposal:
      - Clean the container before final disposal, remove any remaining liquid from the container, using dry air pressure if necessary. Allow container to aerate for at least 5 days. After aeration, wash container using hot water; then offer container to qualified reconditioner or dispose of as directed by State or local regulations.

**Precautionary Statements**

- To clean the container before final disposal, remove any remaining liquid from the container, using dry air pressure if necessary. After aeration, wash container using hot water; then offer container to qualified reconditioner or dispose of as directed by State or local regulations.

**See label booklet for complete Directions for Use.**
