• Have the product container or label with you when calling a poison control center or physician, or going for treatment. • In case of an emergency involving this product, Call Collect, day or night, (314) 694-4000. • This product is identified as Outrider Herbicide, EPA Reg. No. 524-500.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For product information or assistance in using this product, Call toll-free, 1-800-332-3111.

Storage and Disposal

Proper pesticide storage and disposal are essential to protect against exposure to people and the environment due to leaks and spills, excess product or waste, and vandalism. Do not allow this product to contaminate water, foodstuffs, feed or seed by storage or disposal. PESTICIDE STORAGE: Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep container closed to prevent spills and contamination. PESTICIDE DISPOSAL: To avoid wastes, use all material in this container, including rinsate, by application in accordance with label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program. Such programs are often run by State or local governments or by industry. All disposal must be in accordance with applicable Federal, State and local procedures. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Keep out of reach of children.

CAUTION

SULFURIC ACID EYE IRRITATION

May cause severe eye burning, edema, and blindness. Wear splash-proof goggles and splash-proof coat or clothing when handling.

FIRST AID

IF IN EYES: • Hold open upper and lower eyelids widely and gently with one hand. Use a stream of water for 15 to 22 minutes. • Remove contact lenses (if present). After the first 5 minutes, then continue rinsing eyes. • Call a poison control center or physician for treated area.

IF INHALED: • Remove person to fresh air if possible. If not possible, administer artificial respiration. If breathing stops, give artificial respiration.

IF INGESTED: • Do not induce vomiting. • Give 1 to 2 cups of water. • Call a poison control center or physician for treated area.

Environmental Hazards

This chemical concentrates the properties and characteristics associated with other chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly when the water table is shallow, may result in ground water contamination.

This pesticide is a highly toxic to non-target plants. Do not apply directly to water or to areas where surface water is present or to a drainable area below the mean high water mark. drift and runoff will be hazardous to plants in neighboring areas. Do not contaminate water when caring equipment or disposing of waste materials.

The use of any pesticide is a matter that may lead to involvement of endangerable species and adversely affect fish habitat. is a violation of Federal Law.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with the label. Do not apply this product to crops that will be harvested or to areas where fishing is practiced. Do not apply this product to areas that are in or adjacent to wetlands or to any soil, water, or fish habitat. Do not apply this product to any soil or water where aquatic life is present.

Agricultural Use Requirements

Use this product only in accordance with the labeling and with the Water Protection Standards, 40 CFR Part 115, which is supplemental to the "Agricultural Use Requirements" in the DIRECTIVES FOR USE section for information about this standard.

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Water Protection Standards, 40 CFR Part 115, which is supplemental to the "Agricultural Use Requirements." The WPS applies when this product is used to protect agricultural plants or create favorable conditions for planting. The WPS applies when this product is used to protect agricultural plants or create favorable conditions for planting. The WPS applies when this product is used to protect agricultural plants or create favorable conditions for planting.

Storage and Disposal

Store in accordance with all local, state, and federal laws and regulations. Do not store these pesticides with food, feed, feed stuffs, fertilizers, or other chemicals.

Do not apply this product to areas where surface water is present or to areas where aquatic life is present. Do not apply this product to surface water or to a drainable area below the mean high water mark. Drift and runoff will be hazardous to plants in neighboring areas. Do not contaminate water when caring equipment or disposing of waste materials.

The use of any pesticide is a matter that may lead to involvement of endangerable species and adversely affect fish habitat. is a violation of Federal Law.

REMEMBER: It is a violation of Federal law to use this product in any manner inconsistent with the label. Do not apply this product to crops that will be harvested or to areas where fishing is practiced. Do not apply this product to areas that are in or adjacent to wetlands or to any soil, water, or fish habitat. Do not apply this product to any soil or water where aquatic life is present.
9.3 Bermudagrass and Bahiagrass Pasture Sites

The product label text is not visible through the image. It contains information relevant to bermudagrass and bahiagrass pasture sites, with notes on applications, precautions, and conditions.

9.6 Crop Rotation Restrictions

No application of a product in this label text is intended for use in soybeans, alfalfa, clover, or radish. It is not to be used on a field where soybeans, alfalfa, or radish have been planted in the past 2 years. It is not to be used on a field where soybeans, alfalfa, or radish are to be planted in the future.

9.7 Non-Crop Two Sites

The product is applied as a post-emergence herbicide to control weeds in non-crop two sites (e.g., roadsides, power lines, ditches) to control existing vegetation. It is not to be used in areas where toxicological data is not available.

10.2 Winter Wheat and Spring

Wheat is a winter crop, and therefore its application to winter wheat is covered here. Table listing key points:
