PRAMITOL® 25E

HERBICIDE

FOR TOTAL VEGETATION CONTROL OF WEEDS IN NONCROP AREAS

Bare ground weed control around buildings, storage areas, fences, pumps, machinery, fuel tanks, recreational areas, roadways, guard rails, airports, military installations, highway medians, pipelines, railroads, lumberyards, industrial sites, rights-of-way, and similar areas.

1 gallon treats up to 10,000 sq. ft.

ACTIVE INGREDIENT: __________________________
Prometon: 2,4 bis (isopropylamino)-6-methoxy-s-triazine 25%
INERT INGREDIENTS: __________________________
75%
TOTAL: __________________________
100%

This product contains 2 lbs. active ingredient per gallon.

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-424-7452 for emergency medical information.

NOTE TO PHYSICIAN:
Contains petroleum distillate; vomiting may cause aspiration pneumonia. Probable mucosal damage may contraindicate the use of gastric lavage. Treat for circulatory shock, respiratory depression, and convulsions, if needed.

Form: CS 006-1 - 6/20/2007
Although PRAMITOL® 25E has considerable activity through foliar contact, much of its activity is through roots; therefore, regions with a long growing season.

When an adjuvant is to be used with this product, Winfield Solutions, LLC suggests the use of.

PRAMITOL® 25E should be used at the rate of 23 fl. oz. per 1,000 sq. ft. (equivalent to 7.8 gals. per acre of PRAMITOL® 25E). Use a lower rate to control annual and susceptible perennial weeds such as downy bromegrass, oatgrass, goosegrass, quackgrass, purslane, smartweed, puncturevine, goldenrod, and plantain. Do not apply in or near areas that have been drenched or heavily contaminated with the product’s concentrate. Do not use this product on land to be cropped. (3) Do not use on land where livestock will be in contact with the treated area.

PRAMITOL® 25E should be used only where the area to be treated has been prepared according to good construction practices. If the chemical may come into contact with root zones of desirable trees, shrubs, or plants or injury may occur.

For best results, apply PRAMITOL® 25E before weeds emerge or when weeds are young and actively growing. For control of annual and susceptible perennial weeds and grasses such as downy bromegrass, silvergrass, goosegrass, quackgrass, purslane, smartweed, puncturevine, goldenrod, and plantain, broadcast 4.0-6.125 gals. PRAMITOL® 25E in 50-100 gals. of water per acre.

For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot: Broadcast 7.5-10 gals. of PRAMITOL® 25E in 50-100 gals. of water per acre.

For faster top-killing of existing vegetation, apply PRAMITOL® 25E in diesel oil, fuel oil, or weed oil. Use oils at rates of 100-200 gals. per acre. Tall, dense vegetation such as johnsongrass will generally require 150 or more gals. of oil per acre for thorough coverage.

When applying PRAMITOL® 25E to a small area with backpack or pump-up sprayers with capacities of 1-3 gals., calibrate the sprayer so that 1 gal. of water covers 500 sq. ft. Then mix 1/2-1/2% pt. PRAMITOL® 25E with water to obtain a total volume of 1 gal. and apply uniformly over a 500 sq. ft. area. For hard-to-kill perennial weeds and grasses, use the higher rate. If green foliage is present, or part of all of the water can be substituted with oil to provide better coverage.

PRECAUTIONS WHEN USED ON INDUSTRIAL SITES AND NONCROP AREAS:
(1) Feeder roots of desirable plants often extend far beyond the drip line of the branches. Do not apply this product or drain or flush application equipment in locations where the chemical may come into contact with root zones of desirable trees, shrubs, or plants or injury may occur.

Do not use on land to be cropped. (3) Do not use for weed control in greenhouses.

ASPHALT PAVEMENT
PRAMITOL® 25E may be used to extend the useful life of the asphalt pavement by preventing weeds from emerging from it. Follow PRAMITOL® 25E may be applied to the ground before laying asphalt or it may be mixed with cutback asphalt.

PRAMITOL® 25E should be used only where the area to be treated has been prepared according to good construction practices. If the chemical may come into contact with root zones of desirable trees, shrubs, or plants or injury may occur.

Do not use on land to be cropped. (3) Do not use for weed control in greenhouses.

Under Asphalt: PRAMITOL® 25E may be applied to the ground before laying rapid, medium, or slow curing asphalt coatings such as those used on parking lots, highway shoulders and median strips, roadways, and other industrial sites. PRAMITOL® 25E should be applied just before laying of the asphalt coating to prevent possible lateral movement of the herbicide by rainfall or other mechanical means. Sprayers should be equipped to provide continuous agitation of the spray mixture during application to ensure application of a uniform spray emulsion.

Apply PRAMITOL® 25E uniformly at the rate of 0.7 gals. per acre (23 fl. oz. per 1,000 sq. ft.) in a minimum of 100 gals. of water. Use a higher rate of 1.1 gals. per acre (33 fl. oz. per 1,000 sq. ft.) in a minimum of 100 gals. of water for hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot.

Do not use PRAMITOL® 25E under asphalt coatings less than 2 inches thick.

Mixed with Cutback Asphalts PRAMITOL® 25E may be mixed with standard and special cutback asphalts (such as RC, MC, and SC) for weed control in areas being stabilized such as highway shoulders, highway median strips, under highway fences and guard rails, along airport runways and lights, soil and small stone aggregates on shoulders, and cracked asphalt surfaces being resurfaced.

PRAMITOL® 25E should be simultaneously mixed with the cutback asphalt as it is being pumped into the applicator or transport truck to assure a homogeneous mix. Temperatures in the applicator or transport truck should not exceed 170°F.

PRAMITOL® 25E should be used at the rate of 23 fl. oz. per 1,000 sq. ft. (equivalent to 7.8 gals. per acre of PRAMITOL® 25E). Use the lower rate on ordinary weed and grass complexes such as dallisgrass, King Ranch bluestem, Knoottoot gristgrass, and the higher rate where johnsongrass, berlandagrass, or other deep-rooted perennials are present.

In arid areas where deep-rooted perennials are a problem, best results can be obtained by making the application from midsummer through late fall or prior to the rainy season.

PRECAUTIONS WHEN USED UNDER ASPHALT OR MIXED WITH CUTBACK ASPHALT:
(1) Do not apply cutback asphalt mixtures containing PRAMITOL® 25E to soil saturated with water. The condition of the soil should be favorable for penetration or proper asphalt curing may be affected. (2) Do not apply PRAMITOL® 25E with asphalt emulsions such as SS. (3) Feeder roots of desirable trees, shrubs, or other vegetation which are present in the site, they should be removed by scalping with a grader blade. Reapplication of the site following plowing or plowing will allow good penetration of PRAMITOL® 25E, and will help to ensure proper asphalt curing and good weed control.

Do not use PRAMITOL® 25E under asphalt coatings less than 2 inches thick.
STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store at temperatures above 32°F.

PESTICIDE DISPOSAL: Use only non-corrosive containers. Do not mix residues resulting from use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING:
Nonrefillable Container: Do not reuse or refill this container. Offer for recycling, if available. Clean the container promptly after emptying. If dry soil is present in the container, pour or pump rinsate into application equipment or a mix tank. Fill the container 1/4 full with water and recirculate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system.

Refillable Container: Refill this container with prometon only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat the rinsing procedure two more times. For final disposal, offer for recycling or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

WARRANTY DISCLAIMER

The directions for use of this product must be followed carefully. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, (1) THE GOODS DELIVERED TO YOU ARE FURNISHED “AS IS” BY MANUFACTURER OR SELLER AND (2) MANUFACTURER AND SELLER MAKE NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND TO BUYER OR USER, EITHER EXPRESS OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE, OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE, UNINTENDED CONSEQUENCES, INCLUDING BUT NOT LIMITED TO INEFFECTIVENESS, MAY RESULT BECAUSE OF SUCH FACTORS AS THE PRESENCE OR ABSENCE OF OTHER MATERIALS USED IN COMBINATION WITH THE GOODS, OR THE MANAGER OF USE OR APPLICATION, INCLUDING WEATHER, ALL OF WHICH ARE BEYOND THE CONTROL OF MANUFACTURER OR SELLER AND ASSUMED BY BUYER OR USER. THIS WRITING CONTAINS ALL OF THE REPRESENTATIONS AND AGREEMENTS BETWEEN BUYER, MANUFACTURER AND SELLER, AND NO PERSON OR AGENT OF MANUFACTURER OR SELLER HAS ANY AUTHORITY TO MAKE ANY REPRESENTATION OR WARRANTY OR AGREEMENT RELATING IN ANY WAY TO THESE GOODS.

LIMITATION OF LIABILITY

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, IN NO EVENT SHALL MANUFACTURER OR SELLER BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, OR FOR DAMAGES IN THEIR NATURE OF PENALTIES RELATING TO THESE GOODS SOLD, INCLUDING USE, APPLICATION, HANDLING, AND DISPOSAL. MANUFACTURER OR SELLER SHALL NOT BE LIABLE TO BUYER OR USER BY WAY OF INDEMNIFICATION OR TO CUSTOMERS OF BUYER, IF ANY, OR FOR ANY DAMAGES OR SUMS OF MONEY, CLAIMS OR DEMANDS WHATSOEVER, RESULTING FROM OR BY REASON OF, OR RISING OUT OF THE MISUSE, OR FAILURE TO FOLLOW LABEL WARNINGS OR INSTRUCTIONS FOR USE, OF THE GOODS SOLD BY MANUFACTURER OR SELLER TO BUYER. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER, USER, OR ITS CUSTOMERS, BUYER’S OR USER’S EXCLUSIVE REMEDY, AND MANUFACTURER’S OR SELLER’S TOTAL LIABILITY SHALL BE FOR DAMAGES NOT EXCEEDING THE COST OF THE PRODUCT.

IF you do not agree with or do not accept any of directions for use, the warranty disclaimers, or limitations on liability, do not use the product, and return it unopened to the Seller, and the purchase price will be refunded.
