IONPURE WPA is an antimicrobial powder for commercial and industrial use designed to be incorporated into various materials during varying stages of the manufacturing process to preserve the integrity of the manufactured materials. A preservative for use in the manufacture of plastic films, interior and exterior paint, paper coatings, adhesives, and synthetic fibers. For more details of the various materials, refer to the supplemental labeling for uses of IONPURE WPA.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID**

- If swallowed:  
  - Call a poison control center or doctor immediately for treatment advice.  
  - Have person sip a glass of water if able to swallow.  
  - Do not induce vomiting unless told to do so by the poison control center or doctor.  
  - Do not give anything by mouth to an unconscious person.

- If on skin or clothing:  
  - Take off contaminated clothing.  
  - Rinse skin immediately with plenty of water for 15-20 minutes.  
  - Call a poison control center or doctor for treatment advice.

- If in eyes:  
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes.  
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
  - Call a poison control center or doctor for treatment advice.

**HOT LINE NUMBER**

For medical questions, emergencies or accidents involving this product call: 1-800-452-7165. Have the product container or label with you when calling a poison control center or doctor.

**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of cooking utensils and food preparation surfaces.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your state water board or regional office of the EPA.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal. **PESTICIDE STORAGE:** Do not store in areas accessible to children. Do not store in places where food or feed may come in contact with the product. Keep away from direct sunlight or humidity. In case of spill, collect material and dispose of it as specified below. **PESTICIDE DISPOSAL:** Unused materials should be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Empty bag completely and dispose in regular trash collection. Offer cardboard container for recycling if available or dispose in regular trash collection.

**ACTIVE INGREDIENT:**

- Silver* as elemental: 1.6%  
- Other Ingredients: 98.4%  
- Total: 100.0%  

*from silver-magnesium-aluminum phosphate complex

- non bod packaging paper products, natural and synthetic fibers and fabrics, metals, plastics, laminates, composite and building materials, barrier fabrics, furniture, automotive and vehicular parts, glazing materials and HVAC systems: 5.0%

*See Supplemental Labeling for food contact applications*

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **Blending and Formulating Instructions for the Listed Materials**

IONPURE WPA is a silver glass antimicrobial powder designed to be incorporated into various materials at various stages of their manufacturing process to preserve the integrity of the manufactured materials. The powder can be incorporated into the materials as an integral part of the finished products throughout their entire thickness, or as a film over the surfaces of the manufactured materials, depending on the particular method of manufacture of the finished materials and needs of the manufacturer.

IONPURE WPA may be incorporated into the following materials at the specified Maximum Concentrations (MC) on a dry weight basis of finished products, or on a weight by weight basis for liquid products such as paints.

**MANUFACTURED BY:**

Ishizuka Glass Co., Ltd.  
1889 Kawai-cho, Hikarigaoka City  
Aichi, Japan  
Telephone: (+81) 587 37 3251

**NET CONTENTS:**
### Claims
IONPURE WPA is to be incorporated into the following materials at suitable stages of the manufacturing process to preserve the integrity of the manufactured/treated materials, and thus make them suppress the growth of bacteria and mold.

#### Use: non food contact plastics and films*

**Polymer:** polyester, polyamide, polypropylene, polyethylene, polysiloxane, polyethylene copolymer, polyvinyl alcohol, epoxy resin, phenol resin, polycarbonate, cellulose acetate, polystyrene, polyurethane, acrylic resin, methyl methacrylate, acrylonitrile Butadiene styrene copolymer, etc.

**Products:** computer, laptops, and accessories (stationary, mobile and handheld) including processors (CPUs), monitors, stands, and peripherals to include keyboards, mouse, touch pad, touch tablet, graphic tablet, and trackballs and other input/output devices; electronics and gaming equipment (stationary, portable, mobile, and handheld) and displays and their accessories, including consoles, headsets, controllers and other input/output devices; communication equipment (stationary, mobile, and handheld) including telephones, headsets, handsets, intercoms, earphones, cellular telephones, and other input/output devices; gloves, shower, curtains, cable wraps, protective covers, foam containers, brush handles, sponges, insulators, gaskets, tubings, containers, films, furnitures, etc.

#### Use: interior and exterior paints

**Type:** water based or solvent based paint

#### Use: non food packaging paper*; not for paper production use

**Type:** cellulose, synthetic, specialty, reinforced papers, etc.

**Products:** wallpaper, wiping towels, book covers, corrugated paper filters, etc.

#### Use: non food contact adhesives for paper or containers*

**Products:** adhesives for plywood manufacture, adhesive for cement tile and sealants, etc.

#### Use: for home furnishings

**Polymer:** polyester, polyamide, polypropylene, nylon, polyethylene, acrylic, rayon, etc.

**Products for home furnishings:** mattress cover pads, sheets, blankets, quilts and pillow fiber fill, curtains and draperies, carpet and its underlay, upholstery, wiping cloths, towels, bags, wallcover fabrics, cushion pads, etc.

#### Use: for apparel

**Interlinings, industrial uniforms, coats and aprons, sports wear, sleepwear, stockings, socks, helmets, caps, gloves, etc.

**Products for industrial:** brush bristles, shoe linings, artificial leather, filler, book covers, sail cloth, ropes, etc.

#### Use: various surface resin coating textiles

### Food Contact Uses
IONPURE WPA as an antimicrobial additive at or below the indicated maximum concentration into the polymeric manufactured products listed below that are used for manufacturing, packing, packaging, transporting, handling and/or holding food if such use is not intended to have any antimicrobial effect in the food itself. Do not incorporate IONPURE WPA into any food or drinking water contact application listed on this label without first incorporating IONPURE WPA into a polymer which is approved, with associated use conditions, for food contact in 21 CFR 174-186 (inclusive) as amended, or in the United States Food and Drug Administration’s Food Contact Substance Notification System, as amended.
