DiPel ES Equally Susceptible

DIEL ES FOR COTTON (continued) (All states except California)

OUTDOOR USES

The requirements in this box apply to outdoor use of DiPel ES against corn borers, cutworms, and other lepidopterous pests that are pests of corn, soybeans, or other crops.

Apply DiPel ES in the recommended rate of 2.8 2.4 g/100 g (100 ft 2) to a minimum of 100 gallons of water per acre.

* Apply 2.8 2.4 g/100 g to a minimum of 100 gallons of water per acre.

TANK MICE DIRECTIONS FOR CONTROL OF CORN PESTS (DiPel ES can be mixed with other pesticides to achieve desired control levels. See label for compatibility information.)
