GROUNDD AND AERIAL APPLICATION

For aerial applications, apply VectoBac WDG as a 25-30 percent suspension in water containing a spreader/sticker at a rate of 3.5 oz/acre (100 - 300 g/acre) to cover 30 acres per gallon of water. Ensure all water is treated with a spreader/sticker. For medical and transport applications, apply VectoBac WDG as a 25-30 percent suspension in water containing a spreader/sticker at a rate of 3.5 oz/acre (100 - 300 g/acre) to cover 60 acres per gallon of water. Ensure all water is treated with a spreader/sticker.

AERIAL APPLICATION

Avoid spraying drift at the application site. Avoid applying near water, food, or feed by storage or disposal.

Pesticide Storage: Store in cool (59 - 86°F (15 - 30°C)), dry place.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Recommended Container: Do not use carton or refill container. Do not refill this container, but you may transfer materials from it as follows: Empty the remaining contents into an approved waste disposal container. Fill the container (1/4 full with water and reclap. Shake for 10 seconds. Pour the contents of the container on a hard, smooth surface, such as a concrete floor, or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then, offer for re- reuse, sell, offer for sale, or purchase and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. It burned, stay out of smoke.
