Prohibiting the use of this product means that you cannot use this product, and you are required to follow the instructions on the label. This applies to the use of this product by anyone, including the owner of the property, any tenant, or any employee of the owner of the property. This product is not intended for use by children or anyone who is not familiar with the use of pesticides.

Applying this product is a serious business that requires the use of personal protective equipment (PPE). The use of PPE is essential to protect individuals from the harmful effects of pesticides. This includes wearing gloves, long-sleeved shirts and pants, closed-toe shoes, and eye protection.

Applying this product without proper PPE can result in serious health problems, including poisoning, asthma, eye irritation, and skin irritation. Therefore, it is important to follow the instructions on the label and use the proper PPE.
