POND CARE

ALGAEFIX®

PondCare ALGAEFIX effectively controls these types of algae: Green or Green water algae (Chlorella), String or Hair algae (Cladophora) and Blanketweed (Oedogonium) in ornamental ponds. Will not harm fish and plants when used as directed.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. For synthetically lined pond and fountain use only, where all water is contained without any outflow.

WARM WEATHER CAUTION: Before using, make certain that the pond has vigorous aeration, i.e., a fountain or aeration device to avoid fish loss due to low oxygen levels. When algae is controlled and removed by the filter or settles to the bottom of the pond, the oxygen level may drop to harmful levels if adequate aeration is not provided. In warm weather, pond water carries much less oxygen. Therefore, when using during warm weather and high water temperatures, vigorous, 24 hour aeration is required for the duration of the treatment. Do not shut off pond pumps and aeration devices at night.

To ensure accurate dosing, determine pond volume before use. Do not overdose. Add 1 teaspoon (5 ml) for each 50 U.S. gallons (190 L) / 1/4 cup (60 ml) for each 600 gallons (2,275 L) of pond or fountain water. Thoroughly mix into pond water by adding near the pump outflow, waterfall, or aeration device. It can be mixed in a bucket of pond water and dispersed evenly around the pond. Repeat dose every 3 days until algae is controlled. Be prepared to siphon out dead filamentous algae. Once algae growth is under control, add one dose per week. Weekly doses will control algae growth and reduce pond maintenance. CAUTION: Do not use with freshwater crustaceans, including; shrimp, crabs and lobsters.

PRECAUTIONARY STATEMENT: HAZARDS TO HUMANS & DOMESTIC ANIMALS.

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. NOTE: This product contains a chemical known to the state of California to cause cancer.

FIRST AID: IF SWALLOWED, call a Poison Control Center (1-800-222-1222) or Doctor immediately for treatment advice. IF ON SKIN, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or Doctor for Treatment advice. IF IN EYES, hold eye open and gently flush with water for 15 minutes.

STORAGE AND DISPOSAL: Store in a cool, dry place. Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If not, rinse thoroughly before disposing in trash.
