SWIMMING POOL OXIDIZER:

This specially formulated product, a blend of multiple oxidizers, clarifiers and water eliminating buffers, keeps your pool water sparkling clear. This product helps stabilize your pool water chemistry and maintaining chlorine levels, improving swimmer comfort. Proper use of this product will not adversely affect the pH of your pool water. Designed for use with all types of pool water, including: In-Pool, in-ground pools. This convenient, easy-to-use product allows swimming as soon as 15 minutes after application.

This product may be used by day or at night. No special lighting is required and no incandescent bulbs are needed. In-water temperatures less than 70°F this product may take longer to dissolve. To prevent pressure damage to pool surfaces, use a pool brush to disperse any powders which may have fallen to the bottom of the pool. May be used in combination with chlorine, bromine, and trichlor. It is formulated for use with all types of pool chemicals. DO NOT USE in pools sanitized with chloramines. This product is not a permanent stain or algae reducer. To sanitize your pool or for removal of algae, use the appropriate Sun Pool product specifically formulated for these purposes.

DO NOT mix this product directly with any other shock products or pool chemicals as violent reactions could occur. This product must be applied from the bag directly into the pool water. DO NOT pre-dilute this product.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.
