SHOCK‘N CLEAR
MULTI PURPOSE SHOCK
OXIDIZER, BUFFER, CLARIFIER
AND FLOCCULENT

Treat and swim in as soon as 15 minutes*
For all pool surfaces • No pre-dissolving

ACTIVE INGREDIENT: Sodium dichloro-s-triazinetrione ... 58.2%
OTHER INGREDIENTS ............................................. 41.8%
TOTAL INGREDIENTS ............................................ 100.0%

*Refer to the Re-entry statement on the back panel for further guidance.

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for additional precautionary statements.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move patient to fresh air. If patient is not breathing, call 911 or an ambulance, then give artificial respiration. If coughing, do not induce vomiting. If swallowed, call 911 or an ambulance. Then give 2-3 large glasses of water. Do not induce vomiting. Do not give any food or drink. Can cause burns. If skin contact occurs, wash with soap and water for 15 minutes, then rinse with large amounts of water. Call a poison control center or doctor for treatment advice.

WARNING: Harmful if swallowed. Do not induce vomiting. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-695-6553.

SWIMMING POOL OXIDIZER

This specially formulated product, a blend of an oxidizer, clarifiers and water enhancing buffers, keeps your pool water sparkling clear. This product delivers superior water clarity, controlling algae, eliminating chlorine hangover, improving swimmer comfort. Proper use of this product will not adversely affect the pH of the pool water. Designed for use with all types of pool surfaces, this convenient, easy-to-use product allows swimming as soon as 15 minutes after application.

This product dissolves quickly and completely. No priming is required and no backwashing is needed. In water temperatures less than 70°F, this product may take longer to dissolve. To prevent possible damage to pool surfaces, use a pool brush to disperse any granules which may settle to the bottom of the pool. May be used with chlorinated, brominated, ozone and ionization systems. It is formulated for use with all types of pool surfaces. DO NOT use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or to control algae, use the appropriate San product specifically formulated for these purposes.

△ DO NOT mix this product directly with any other shock products or pool chemicals as violent reactions could occur. This product must be applied from the bag directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

When the pump is in operation, apply the entire dosage at one time. Broadcast evenly around edges with special attention near drain of the pool where water circulation is the greatest. Apply directly to pool water only. Do not add through a skimmer or any automatic shocking device.

For best results, test and adjust pool water pH to 7.2-7.8 prior to application. Apply product when pool is not in use. Swimmer may resume in 30 minutes. If product application is repeated, may return to swimming in 5-10 minutes. After product application, test chlorine residual. Swimmer may resume in 30 minutes. If necessary, record pH for future reference.

ROUTINE MAINTENANCE: To help maintain a sparkling clean pool, add one pound of product to 10,000 to 12,000 gallons of water each week.

ADDITIONAL APPLICATIONS: Additional applications are recommended after periods of heavy pool usage, significant rainfall or the appearance of cloudy water. Follow routine maintenance instructions.

OFF-SEASON MAINTENANCE: Pools which are kept running during the winter season require less frequently additions. Apply product approximately once every month at the rate of one pound of product to 10,000 to 12,000 gallons.

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF EYE INJURY.

STORAGE AND DISPOSAL: Keep this product dry in its original (unopened) bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or other flammable material. If product becomes damp, discard following instructions for contamination under Physical or Chemical Hazards. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage. Do not breathe dust may be harmful if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling product. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substances. Do not pre-dilute or add water to this product. Always apply directly to the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reuse bag. Isolate bag in open air or well ventilated area. Flood bag and area with large volumes of water. In case of spills, cover up and place product in pool water. Then flood spills area with large volumes of water.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
