DIRECTIONS FOR USE

If it is a violation of Federal Law to use this product in a manner inconsistent with the Labeling.

SHAKE WELL BEFORE USE

General: Use the spray as a spot or crack and crevice treatment to control cockroaches, flies, silverfish, roaches, waterbugs, and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pets are found or may occur. Spray surfaces until wet. Do not use in enclosed areas of food-handling establishments, restaurants, or other areas where food is commercialized or processed. Do not use in areas where food is exposed or likely to be in operation. Spraying areas are where pets are found or are likely to be in operation. Do not use or store near food or foodstuffs.

In the home, cover all food handling surfaces and cover or remove all food and cooking utensils, or wash thoroughly after treatment. Non-food-killed areas of localized areas are areas such as garbage rooms, basements, floor drains, (to sewers, entryways to basements), offices, interior rooms, machine rooms, boiler rooms, garages, mop closets and storage (after cleaning or flooring), etc.

Avoid contamination of food and beeps.

FOR SPOT TREATMENT: To Kill Cockroaches, Ants, Black Widow Spiders, Carpet Beetles, Crickets, Scorpions, Silverfish, Sawbugs, and Spiders: Spray areas where pets are found or may occur, including dark corners of rooms and closets; cracks and crevices in walls, along baseboards and door and window frames; behind and below sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing, and utility installations. Pets driven out of hiding places should be sprayed directly. For ants, spray and trails and around doors and windows, and wherever else these pets may find entrance.

To Kill Brown Dog Fleas and Ticks: Thoroughly spray as a spot treatment to treated areas such as pet beds and resting quarters, near cracks and crevices, along and behind baseboards, window and door frames, and in other locations where pets will be present. Pet's old bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY PETS WITH THIS PRODUCT. Pets should be treated with a registered flea and tick control product prior to returning treated areas.

FOR CRACK AND CREVICE TREATMENT: To Kill Cockroaches, Ants, Black Widow Spiders, Brown Dog Fleas, Ticks, Beetles, Crickets, Flies, Scorpions, Silverfish, Sawbugs and Spiders: Spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where these insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food-handling surfaces. Flies and mosquitoes may be killed as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pets may enter the home. Also spray dark corners and localized rusting areas (such as under eaves) or porches, patios, and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment every three weeks.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Keep skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration or mouth-to-mouth, if possible. Call a poison control center or doctor for further medical advice. IF IN EYES: Flush eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present. After the first 5 minutes, continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting, unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

NOTE TO PHARMACIST: Contains petroleum distillate—vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-800-929-9691.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Causes moderate eye irritation. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Remove pets, birds, and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until very dry.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to any body of water.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE: Keep away from heat, sparks and open flame. Do not use under or around gas stoves, water heaters or other gas utilities (including inside heating units) with open flames or pilot lights. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool dry area. Always store pesticides in the original container. Do not use from food and pet food.

PESTICIDE DISPOSAL: Do not puncture or incinerate container. Non-refillable container. Do not reuse or refill this container. If empty, place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.
