A quaternary alcohol solution impregnated is a wiping cloth. A non-woven disposable cloth for use in hospitals and other critical care areas where the control of hazards of cross-contamination between treated surfaces is required. Used on hard non-porous surfaces and equipment listed on this label made of stainless steel, plastic, non-slip rubber. Some organisms are removed from the surface by thoroughly wiping the surface with the wipe. Most remaining organisms are killed within five (5) minutes by exposure to the liquid in the wipe.

Areas of Use: Hospital and Health Care Settings: Clinics, Dental Clinics, Outpatient Clinics, Home Health Care, Hospitals, Laboratory, Medical offices, Physical therapy, Hospital offices, Radiology, Rehabilitation, Transport vehicles.

Critical Care Areas: ICU, Emergency Rooms, ICU, Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU) and Surgery.

Hospital, Healthcare, and Critical Care Use Sites: May be used on hard non-porous surfaces: beds, rails, cabinets, cast, chairs, counters, exam tables, gurneys, ladders, IV poles, stethoscopes, stretchers, tables, telephones, toilet seats; and hard non-porous outside surfaces: diagnostic equipment, patient monitoring equipment, patient support and delivery equipment.

This product is not to be used as a terminal sterilant high level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dispenser directions: To start feed: Remove lid and discard inner seal from container. Fill container of wipe roll, remove first wipe for use, fold corner of wipe into a point and thread through the hole in the container lid. Pull through one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When in use keep center cap of lid closed to prevent moisture loss.

To disinfect non-food contact surfaces only: Use a wipe to remove heavily soiled material. Wipe treated surface thoroughly wet surface. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipes if needed to assure continuous five (5) minute wet contact time. Let air dry.

Ultrasound transducers and probes: For use on external surfaces of ultrasound transducers and probes only. To disinfect: Pre-clean gel from external surface of ultrasound transducer or probe to be disinfected by using a clean washcloth. Thoroughly wet the probe with a washcloth. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipes if needed to assure continuous five (5) minute wet contact time. Let air dry.

GENERAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HEPATITIS B VIRUS (HBV) AND HEPATITIS C VIRUS (HCV) OF SURFACES/SUBJECTS SOILED WITH BLOOD/ BODY FLUIDS

Personal protection: When using this product, wear disposable protective gloves, protective gowns, face mask, or eye coverings as appropriate when handling HIV-1 (AIDS Virus), HBV, or HCV infected blood or body fluids.

Cleaning procedures: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal wipe. Open, unfold first germicidal cloth to remove heavy soil.

Disposal of infectious materials: Dispose of used towelette in accordance with local regulations for infectious waste disposal. Contact times: Use second germicidal cloth to thoroughly wet surface. Allow to remain wet two (2) minutes, let air dry. Although efficacy at two (2) minute contact time has been shown to be adequate against HIV-1, HBV and HCV this time is not sufficient for the other organisms listed on this label. Therefore, a five (5) minute wet contact time must be used for other listed organisms.

PRECAUTIONARY STATEMENTS

Hazard to humans and domestic animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor.

PHYSICAL OR CHEMICAL HAZARD: Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored glass.
