DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SHAKE BEFORE USING AND AT INTERVALS DURING PROLONGED USE.

In cold storage, warm container upright with nozzle away from you. Press valve down and spray as directed. To avoid possible staining of fabrics or surfaces, do not spray at close range.

Flies, Mosquitoes, Gnats, Midges, Wasps, Hornets and Flying Flies (Millers). Close all doors and windows and spray room at a rate of 1 second per 1000 cubic feet. Direct spray to all parts of room, especially windows and other light sources which attract these insects. Keep residue in constant motion. Keep room closed for 10 to 15 minutes after treatment. Repeat treatment as necessary.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND ANIMALS

CAUTION Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with eyes or skin. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. Vacate premises after treatment and wait until before reoccupying. Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash with potable water all equipment, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds, and cover fish aquariums before spraying.
