PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For formulations into Antimicrobial Products for use in wastewater, industrial processes water systems such as recirculating cooling water and industrial waste water treatment; swimming pools and spas, non-food contact surfaces of agricultural processing or equipment, residential and public access facilities and commercial, institutional and industrial premises/equipment, and food handling establishments.

Specifications for recombination of this product or preparation of formulations must be consistent with U.S. Environmental Protection Agency requirements. Formulations using the product are responsible for providing data for the EPA registration of their formulated product. This product may be used to formulate products for specific use(s) not listed on this label if the formulation of primary registrant has complied with U.S. EPA data requirements regarding the support of such use(s).

NOTE: This product should not be used or compounded with any reducing or oxidizing agents (such as calcium hypochlorite, solid perchlorate, or nitric acid) since such mixtures may be explosive. Do not use in conjunction with soap or any anionic wetting agent.

DIRECTIONS FOR USE
