Disinfectant • Cleaner • Detergent • "Vируцид" • Миледваст (on hard inanimate surfaces) • Deodorizer

ACTIVE INGREDIENTS:
n-Alkyl (50% C14, 50% C16, 5% C12, 5% C18) 4.5%
n-Alkyl (50% C12, 25% C14) 4.5%
Ammonium chloride 4.5%
Ammonium hydroxide 25.0%
Total 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

FIRST AID

If in eyes
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

If swallowed
- Call a poison control center or doctor immediately for treatment advice.

**NOTE TO PHYSICIAN**

Probable mucosal damage may cause the use of gastric lavage.

See side panel for additional precautionary statements.

Pack-R Quat Plus has been cleared by the FDA in 40CFR Section 180.940 for use as a sanitizer on food processing equipment, utensils, and other food contact articles at a concentration of 200 ppm active quaternary without requiring a Puddled Water Rinse.

DIRECTIONS FOR USE

As a solution with a cloth, mop, sponge, hand pump trigger sprayer or low pressure coarse spray nozzle as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

To disinfect food processing premises: Before using this product, food products and packaging materials must be removed from the area and carefully protected. For floors, walls, and storage areas, add 1 ounce of Pac-Rite 2-Quat Plus per gallon of water. For heavily soiled areas, add 1 ounce of Pac-Rite 2-Quat Plus per gallon of water. To clean and maintain floors and equipment, use the proper dilution or concentration. After use, all surfaces in the area must be thoroughly rinsed with potable water. BACTERIOCIDAL ACTIVITY - When diluted at the rate of 1 ounce per gallon of water, this product exhibits effective disinfector activity against the organisms: Pseudomonas aerogenosa PIR 10, Escherichia coli, Klebsiella pneumoniae, Salmonella enteritidae, and Staphylococcus aureus. Staphylococcus aureus, Brevibacterium ammoniagenes, Streptococcus faecalis, Shigella dysenteriae, Enterobacter aerogenes, Staphylococcus aureus. When used for sanitization of previously cleaned food equipment or food contact items, limit active quaternaries to 200 ppm, NO POTABLE WATER RINSE IS REQUIRED. This product is an effective sanitizer when diluted in water up to 250 ppm hardness (as CaCO3). At 1 ounce per 3.5 gallons of water, this product eliminates 99.999% of Escherichia coli and Staphylococcus aureus in 60 seconds in 200 ppm water hardness (as CaCO3) in accordance with the ADAM Chemical and Detergent Sanitizing Action of Disinfectants test.

DIRECTIONS FOR SANITIZING FOOD PROCESSING EQUIPMENT, UTENSILS, AND FOOD CONTACT ARTICLES REGULATED BY 40CFR sec 180.940

1. Scrub, flush or pre-soak articles (whether mobile or stationary) to remove gross food particles and soil.
2. Thoroughly wash articles with an appropriate detergent or cleaner.
3. Rinse articles thoroughly with potable water.
4. Sanitize articles using a solution of 1 ounce of Pac-Rite 2-Quat Plus per 150 gallons of water (or equivalent dilution) (200 ppm active quaternary). Articles that can be immersed in use-solution should remain in solution for 60 seconds, Articles too large for immersion should be thoroughly washed by rinsing, spraying or swabbing.
5. Remove immersed items from use-solution to drain and then air dry.
6. Sanitize articles using a solution of 1 ounce of Pac-Rite 2-Quat Plus per 150 gallons of water (or equivalent dilution) (200 ppm active quaternary) for mechanical or automated systems. Allow surfaces to remain wet for at least 60 seconds. Drain thoroughly before reuse. No rinse required. For mechanical operations or automated systems, the used sanitizing solution may not be reused for sanitizing.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER, KEEP OUT OF REACH OF CHILDREN, CORROSIVE. Causes irreversible eye damage and skin burns. Do not get on eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. Contains no phosphorous.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL. PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F. CONTAINER DISPOSAL - Non-refillable container. Do not refill or reuse container. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Re-place and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 20 seconds. Stand the container on its end and tip it back and forth several times. Turn the container on its other end and tip it back and forth several times. Empty the rinse into an approved tank to be removed or a mix tank or storage tank for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray runoff, or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to labeling instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
