Not only helps control the hazards of cross-contamination on treated hard, nonporous, environmental surfaces, but also kills many microorganisms that cause odors. For disinfecting hard, nonporous surfaces and is formulated for use in the schools, colleges, universities and office buildings, health care facilities, medical and dental offices, nursing homes, airports, and federally inspected meat and poultry plants.

Use on washable, hard nonporous surfaces of appliances, bathtubs, cabinets, chairs, counters, desks, countertops, floors, garbage cans, highlighting, outdoor furniture, exterior surfaces of residential refrigerators, shower stalls, bathroom and kitchen sinks, stoves, stovetops, electric stoves, telephones, toilets, shower bowls, toilet bowl surfaces, tubs, urinals, walls and hard nonporous surfaces made of: Formica®, glazed ceramic, glazed enameled surfaces, glazed porcelain, metal, plastic, sealed stone, stainless steel, vinyl and plastic upholstering, and woodwork.

Kills: Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enteritica, Streptococcus pyogenes, "Herpes Simplex Virus Type 2 (HSV-2), HSV-1" (the AIDS Virus), "Varicella Zoster Virus (VZV), Aspergillus niger, Trichophyton mentagrophytes (Athlete's Foot Fungus)" (Class of Ringworm), "Pseudoephedrine 2009 HIV-1 (HIV), Arzvitus (formerly known as arvireflu), KITCISTER: Kitchen linens should be both broken and kitchen gowns. Use anywhere greasy dirt is a problem.

BATHROOM: For cleaning and deodorizing basins, tubs, and glassed tiles. Leaves everything bright and clean, kills odor-causing bacteria. Odor disappear instantly. Use where odor is a problem.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. DISINFECTION: VIRICIDAL/FUNGICIDAL/MOLD & MILDEW DIRECTIONS: If surfaces are visibly dirty proceed first. Spray 4 - 8 inches from surface, and surfaces are thoroughly wet. Rub with a brush, sponge or cloth. Treated surfaces must remain wet for 10 minutes. Wipe dry with a clean cloth, then spray or allow to air dry. Rinse is not necessary on floor surfaces that are to be waxed or coated. For moist and mildew control, repeat application weekly or when growth appears. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. This product should not be used on clean materials, stainless steel and chrome.

TO CLEAN AND DISINFECT TOILET BOWLS AND URINALS: Remove gross film from bowl. Remove or empty the inner tank residual bowl water. Use 4 ounces of product in toilet bowl or urinal. Apply (squirt) directly around bowl and under rim; brush or scrub thoroughly. Allow product to remain on surface for a contact time of 10 minutes; then flush bowl. This product, when used as directed, will not harm white or colored bowls or inanimate hard surfaces. Close cap on containers after use.

TO CLEAN AND/OR DEODORIZER: Apply to sink, toilet, shower, or ray on hard, nonporous surfaces. Wipe dry with a clean cloth, or sponge, or allow to air dry. For use in federally inspected meat and poultry plants. For use on all surfaces in mobile product processing areas, non-processing areas, and/or exterior areas, before using this product, food products, and packaging materials must be removed or carefully protected, then follow the "Disinfection Directions" above.

SANITIZING NON-FOOD CONTACT SURFACES: Use on washable hard nonporous surfaces: walls, floors, tables, garbage cans and telephones. This product is effective against Staphylococcus aureus and Enterobacter aerogenes in the presence of 5% ethanol. Apply by mop, sponge, cloth, or spray to thoroughly wet surfaces for a minimum contact time of 5 minutes. Wipe dry with a clean cloth or sponge or allow to air dry. Do not use in food preparation, food handling, and food contact areas. Do not use in commercial plants.

KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS: In healthcare settings or other settings in which there is an expected likelihood of spilling of intact blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. PERSONAL PROTECTION: Clean-up must be done with disposable protective gloves, gowns, masks and eye protection. CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. CONTACT TIME: Effective against HIV-1 (AIDS virus) on hard nonporous surfaces in the presence of a moderate amount of organic soil (5% blood semen) (providing 1000 units of activity quantity) for a contact time of 15 minutes at room temperature (20-25°C). Use a ten (10) minute contact time for disinfection against all other bacteria, fungi, and viruses in classes.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID
IF SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor for further treatment.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children. Pesticide Disposal: Pesticide waste are acutely toxic. Improper disposal of excess pesticide, spray residue or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Container Disposal: Nonresidual container. Do not reuse or refill this container: triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incinerate, or if allowed by state and local authorities, by burning.
