AMICAL™ 48

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

USE IN PLANTS
AMICAL 48 is an effective miticide and acaricide for outdoor and indoor plants. It is non-phototoxic, and should be used according to the label directions. It is best applied to the young leaves of plants, between 1-8 lb. of AMICAL 48 per 100 gallons of water for various conditions, with 1-3 lb. of AMICAL 48 per 100 gallons suitable for some very sensitive conditions. For other plant applications, mixing with water-soluble fungicides, insecticides and other pesticides is recommended. AMICAL 48 is a systemic insecticide with a biological activity of 0.3 lb. of AMICAL 48 per 100 gallons of water for maximum performance.

USE IN PIGMENT DIRECTIONS, INKS, EMULSIONS AND ACRYLIC PAINTS
AMICAL 48 is an effective acaricide against mites and other insects and should be added to the pigment in the paint mixture to control mites. AMICAL 48 should be added to the paint at a rate of 0.2% to 0.3% to ensure maximum acaricidal activity.

USE IN ADOBE PRODUCTS
AMICAL 48 is an effective acaricide against mites and other insects and should be added to the pigment in the paint mixture to control mites. AMICAL 48 should be added to the paint at a rate of 0.2% to 0.3% to ensure maximum acaricidal activity.

USE IN LEATHER TANNING
For use in leather tanning and dyeing use only. AMICAL 48 is a non-toxic, white, high-quality product that is effective in controlling mites and other insects in leather tanning and dyeing processes. AMICAL 48 should be added to the leather tanning and dyeing mixture at a rate of 0.2% to 0.3% to ensure maximum acaricidal activity.

USE IN WOOD PRESERVATION
For Formulating Use Only. Do not apply this product to any structure, or use any treated wood in the construction of buildings. AMICAL 48 can be used for control of mites, wood decay, and wood-feeding organisms. It is effective for the control of wood-feeding insects, such as beetles, termites, and wood-boring pests. AMICAL 48 is effective for the control of wood-feeding organisms in structures and for the control of mites and other insects. AMICAL 48 should be added to the wood preservative mixture at a rate of 0.2% to 0.3% to ensure maximum acaricidal activity.
