Precautionary Statements
Causes substantial but temporary eye injury and skin irritation. Harmful if swallowed, inhaled, or absorbed through the skin. Wear protective eyewear (goggles or face shield) and chemical resistant gloves. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear protective eyewear (goggles or face shield), chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.

First Aid
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

MADE in U.S.A.
WA Reg. No. 71089-0102

2/28/08
Use Directions
Use Simulaid at a range of 1/2 to 4 pints per 100 gallons of water. Read and carefully follow the use directions of the accompanying pesticide label prior to using Simulaid.

Use lower use rates during periods of higher humidity and slower drying conditions. For applications where pesticide label is void of information regarding the use of adjuvants, conduct a jar test to confirm compatibility and use spray combination on a small test area prior to conducting large scale applications.

For the products listed below, use the following suggested rates. Confirm compliance with pesticide label prior to use.

General Information
Simulaid is a water soluble, low foaming nonionic wetting agent.

Simulaid can be used with a variety of foliar applied plant growth regulators, fungicides and insecticide sprays.

Simulaid provides enhanced spray deposition, reduces spray run off/loss and improves spray efficacy.

Simulaid assists spray absorption by modifying the spray droplets resulting in improved active ingredient penetration through the waxy leaf cuticle.

Simulaid is effective with streptomycin sprays.

Simulaid Use Rate/100gal
Apogeé®..........................................................1/2 to 1 pint
Ethephon, Ethrel®........................................1 pint
Malathion Hydrate........................................1 to 4 pints
NAA or Amide Sprays..............................3/4 pint
NAA plus Carbaryl........................................1/2 pint
NAD..............................................................1 pint
Streptomycin.................................................1 to 2 pints

Use lower rates when used in combination with two or more pesticides or foliar nutrients. Do not use in combination with other surfactants or wetting agents. Do not acidify the spray tank solutions below a pH of 5.

Storage and Disposal
Do not contaminate water, food, or feed by storage or disposal.

Storage: Store above 32° F. Store away from heat or open flames and oxidizing materials.

Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC website at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

Not For Aquatic Use
*Apogeé is a registered trademark of BASF
*Ethrel is a registered trademark of Bayer

Notice-Read Carefully
TERMS AND CONDITIONS OF SALE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of the product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage of plants, crops and animals to which the materials are applied, failure to control pests, damage caused by drift to other plants or crops and personal injury.
