Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact PROSAR at 1-877-250-9291 for emergency medical treatment information.

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category C on an EPA chemical resistance category selection chart.

**Applicators and other handlers must wear:**
- Long-sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, poly-vinyl chloride (PVC), or Viton®
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washable, use detergent and hot water. Keep and wash PPE separately from other laundry.

### ENGINEERING CONTROLS STATEMENT

When handlers use closed systems, enclosed cab, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 190.240(c)(4-6)), the handler PPE requirements may be reduced or modified as specified in the WPS.

### USER SAFETY RECOMMENDATIONS

**Users should:**
- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply within 100 feet of lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, estuaries, and commercial fish farm ponds. Do not apply when weather conditions favor drift from treated area. Do not allow spray to drift off of crop, especially when spraying outer rows. Always direct spray into the orchard. Do not contaminate water when disposing of equipment washwaters or rinsate.

### IMPORTANT—Read the entire C Declaration of Warranties before use

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a way inconsistent with its labeling. Do not apply this product in a way that may be harmful to you or others, or in a way that may cause any requirements specific to your state to be violated.

### AGRICULTURAL USE

Use this product only in accordance with the Worker Protection Standard (WPS). It contains requirements for cultural workers on farms, forests, and orchards, and handlers of agricultural requirements for training, decontamination, and emergency assistance. It contains instructions and exceptions pertaining to this label about personal protection and restricted-entry intervals. The requirements in this box on a product that are covered by the WPS are:

- **WPS**
  - Do not enter or allow worker entry into the restricted entry interval (REI) PPE required for early entry to treated areas. Do not allow spray to drift off of crop, especially when spraying outer rows. Always direct spray into the orchard. Do not contaminate water when disposing of equipment washwaters or rinsate.
IMPORTANT—Read the entire Directions for Use and Disclaimer of Warranties before using this product.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 190. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval.

The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Coveralls
- Chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, poly-vinyl chloride (PVC), or Viton
- Shoes plus socks

USE PRECAUTIONS

IMPORTANT: DO NOT MAKE MORE THAN 1 APPLICATION OF APOLLO SC PER SEASON.

Do not graze livestock in treated areas or harvest cover crop for livestock feed.

Do not apply this product through any type of irrigation system.

Do not apply by air.

GENERAL INFORMATION

APOLLO SC is a specific miticide, which acts as an oxi
cide. APOLLO SC is not disruptive to beneficial insects and
mites. It has good residual activity on European red mites, 
McDaniel mites, Pacific spider mites, two-spotted spider
mites, Eriophyes and Yellow spider mites when applied
according to label directions.

For Use on Apples, Pears, Apricots, Cherries, Grapes
(except New York), Peaches, Nectarines, Persimmons,
Almonds, Walnuts, Christmas Trees (except California),
and Christmas Tree Plantations (except California).

Because APOLLO SC acts primarily against the egg, apply
APOLLO SC at the first sign of mite activity. On apples,
delayed dormant or early season applications of APOLLO
SC may not effectively control two-spotted spider mites or
McDaniel mites which invade trees later in the summer. If
the mite population is approaching damaging levels on
the target crop, including European red mites on apples, or if
pear rust mite is present, combine APOLLO SC Oxicide/Miticide with an appropriate adjuvants.

* PHN = Pre-Harvest Interval, t cation prior to harvest.
** Applications with rates below
acre are recommended at
listed IPM programs and an
insecticides are prevalent.
Factors which warrar high
APOLLO SC per acre include:
1. For control of Pacific spider
2. For control of McDaniel mites
3. Earliest seasonal timings to
   secure European red mite egg.
4. When mite predators popular.
5. To ensure adequate coverage
   and or trees with heavy leaf growth.

* PHI = Pre-Harvest Interval, the latest timing for an application prior to harvest.
** Applications with rates below 4 ounces of APOLOLO SC per acre are recommended only in association with established IPM programs and only when adequate beneficial insects/mites are prevalent.

Factors which warrant higher rates (4 to 8 ounces) of APOLOLO SC per acre include:
1. For control of Pacific spider mites.
2. For control of McDaniel spider mites.
3. Earliest seasonal timings for blocks with high overwintering European red mite egg populations.
4. When mite predator populations are low.
5. To ensure adequate coverage of full size standard trees and/or trees with heavy leaf densities.
APPLICATION METHOD

APOLLO SC Oxicide/Miticide may be applied by ground using either dilute or concentrate spray equipment. Do not apply by air.

Apples and Pears
50 to 400 gallons per acre: Apply 4 to 8 ounces of APOLLO SC per acre. Use sufficient volume of water to obtain complete coverage, but not less than 50 gallons per acre. For applications above 400 gallons per acre, use 1 to 2 ounces of APOLLO SC per 100 gallons of spray. Do not apply less than 4 ounces of APOLLO SC per acre.

Grapes (except New York)
At least 50 gallons per acre: Apply 4 to 8 ounces of Apollo SC per acre.

Apricots, Cherries, Persimmons, Peaches, and Nectarines
50 to 400 gallons per acre: Apply 2 to 8 ounces of APOLLO SC per acre.

Almonds and Walnuts
50 to 400 gallons per acre: Apply 2 to 8 ounces of APOLLO SC per acre. Use at least 4 ounces of APOLLO SC south of California Highway No. 152.

A tank mix of APOLLO SC with an adulticide may be warranted when adult mites are present. Do not use the tank mix under conditions where the adulticide alone is not recommended. Before use, read the adulticide label for additional information and precautions.

Christmas Trees, Christmas Tree Plantations (excluding California)
50 to 400 gallons per acre: Apply 4 to 8 ounces of APOLLO SC per acre for control of Pacific spider mite, Spruce spider mite, and Two-spotted spider mite. Time applications for periods of peak egg laying or immature mite activity. Do not make more than one application per year.

MANAGING MITE RESISTANCE

Repeated use of miticides with a similar mode of action may lead to build-up of resistant strains of mites. For good resistance management practices, Makhteshim-Agan recommends that the oxicide APOLLO SC Oxicide/MITICIDE be applied only once per season. If additional miticide applications are needed, use a miticide with a different mode of action.

STORAGE AND DISPOSAL

PROHIBITIONS
Do not contaminate water, food, or feed by storage or disposal.

STORAGE
Store in original container, tightly closed, in a safe place.

PESTICIDE DISPOSAL
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL
Nonrefillable Container (five gallons or less):
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 5 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for future use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Nonrefillable Container (greater than five gallons):
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its side.

responsibility of the refiller. To clean the container
before final disposal, empty the remaining contents from
this container into application equipment or mix tank. Fill the container about
10 percent full with water. Agitate vigorously or recirculate
water with the pump for 2 minutes. Pour or pour the
rinse into application equipment or rinse tank collection
system. Repeat this rinsing procedure two more times.

WARRANTY STATEMENT
MAKHTESHIM AGAN OF NORTH AMERICA, INC. warrants
that this product conforms to the chemical description on
the label thereof and is reasonably fit for purposes stated
on such label only when used in accordance with directions
under normal use conditions. It is impossible to eliminate all
risks inherently associated with use of this product. Crop
injury, ineffectiveness, or other unintended consequences
may result because of such factors as weather conditions,
presence of other materials, or the manner of use or appli-
cation, all of which are beyond the control of MAKHTESHIM
AGAN OF NORTH AMERICA, INC. To the extent allowed by
law, MAKHTESHIM AGAN OF NORTH AMERICA, INC. shall
not be liable for consequential, special, or indirect damages
resulting from the use or handling of this product. All such
risks shall be assumed by the Buyer. In addition to the fore-
going, no purchaser of this product (other than an end user)
shall be entitled to any reimbursement for any loss suffered
as a result of any suspension or cancellation of the regis-
tration for this product by the U.S. Environmental Protection
Agency. Except as expressly provided herein, MAKH-
TESHIM AGAN OF NORTH AMERICA, INC. makes no war-
ranties, guarantees, or representations of any kind, either
expressed or implied, or by usage of trade, statutory or oth-
erwise, with regard to the product sold, including, but not
limited to merchantability, fitness for a particular purpose,
use or eligibility of the product for any particular trade
usage. The exclusive remedy of any buyer or user of this
product for any and all losses, injuries, or damages result-
ing from or in any way arising from the use, handling, or
application of this product, whether in contract, warranty,
tort, negligence, strict liability, or otherwise, shall be dam-
ages not exceeding the purchase price paid for this product
or, at MAKHTESHIM AGAN OF NORTH AMERICA, INC.'s
election, the replacement of this product.
