pdCare Surface Disinfectant/Decontaminant Cleaner is recommended for use on hard, non-porous inanimate surfaces.

### Description

- **Active Ingredients:**
  - Diisobutylphenoxyethoxyethyl dimethyl benzyl ammonium chloride: 0.28%
  - Isopropanol: 17.20%

- **Net Weight:** 2.5 gallons (9.5 liters)

### Use

#### For Use as a Precleaning Decontaminant Immersion Solution:

1. Place instruments in pdCare Surface Disinfectant/Decontaminant Cleaner so as to allow for complete terminal sterilization/high-level disinfection process.
2. Add additional water to ultrasonic unit. Immerse instruments in solution and activate.
3. Thoroughly rinse instruments under running water to remove visible gross debris. Add additional water to container. Spray pdCare Surface Disinfectant/Decontaminant Cleaner directly onto instruments. Using either a tray or an ultrasonic unit, immerse instruments in pdCare Surface Disinfectant/Decontaminant Cleaner for 3 minutes at room temperature (69°F/20°C).
4. For use as a Virucide on Non-Instrument Surfaces, thoroughly wetting area to be treated. Allow surface to remain visibly wet for 2 minutes at room temperature (69°F/20°C).
5. For use as a Virucide on Precleaned Non-Critical Medical Devices, Instruments and Implements Including Hard and Non-Porous Surfaces, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 30 seconds using a stiff bristle brush until visibly clean. Remove and rinse.

#### For Use as a Precleaning Decontaminant

1. Remove gross filth and heavy soil loads. Spray pdCare Surface Disinfectant/Decontaminant Cleaner directly onto surface. Allow to remain visibly wet for 30 seconds using a stiff bristle brush until visibly clean. Remove and rinse.

#### For Use as a Disinfectant on Precleaned Non-Critical Medical Devices, Instruments and Implements Including Hard and Non-Porous Surfaces

1. Remove gross filth and heavy soil loads. Spray pdCare Surface Disinfectant/Decontaminant Cleaner directly onto surface. Allow to remain visibly wet for 30 seconds using a stiff bristle brush until visibly clean. Remove and rinse.

### Storage and Disposal

- **Pesticide Storage:**
  - Uses water to ultrasonic unit.
  - Add additional water to container.
  - Add additional water to ultrasonic unit.
  - Thoroughly rinse instruments under running water to remove visible gross debris.

- **STORAGE AND DISPOSAL:**

  - **Environmental Hazards:**
  - **Wastes resulting from the use of this product may be labeled as infectious waste according to federal and state requirements. **

  - **Pesticide Storage:**
  - **Do not contaminate water, food, or feed by storage and disposal.**

- **Personal Protection:**

  - **Wear appropriate barrier protection such as disposable gloves, gowns, masks and eye coverings.**

- **Pesticide Storage:**

  - **Do not store near food, food containers, or food processing equipment.**

- **Wipe surface using a towel or allow to air dry.**

- **Nonrefillable container. Do not reuse or refill this container.**

- **Pesticide Storage:**

  - **Do not store near food, food containers, or food processing equipment.**

  - **Pesticide Storage:**

    - **Wipe surface using a towel or allow to air dry.**

- **Nonrefillable container. Do not reuse or refill this container.**
