STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store only in original container. Do not reuse empty container. If a leaky container must be contained within another, mark the outer container to identify the contents. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING DISPOSAL: Non-refillable container. Do not re-use this container to hold materials other than pesticides or diluted pesticides or rinseate. Triple rinse. After emptying and cleaning, it may be allowable to temporarily hold rinseate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Offer for recycling if available or puncture and dispose in a sanitary landfill, or by other procedures approved by state and local authorities. If rinseate cannot be used, follow pesticide disposal instructions. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state and federal regulations.

RESIDUE REMOVAL INSTRUCTIONS: Triple rinse container promptly after emptying. Triple rinse as follows: Fill the container 1/4 full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinseate disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Keep Out of Reach of Children. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through the skin. Harmful if inhaled. Avoid breathing spray mist. Do not get into eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame. Do not mix with oxidizers, anionic soaps and detergents.

Multi-Clean®
Net Contents: 1 U.S. Gallon 3.78 Liters

Ful-Trole 64
1 Gallon Label
Maquat 5.5M (Mason Chemical), Matches EPA Label: 2-19-2010
This product delivers non-acid disinfection performance in an economical concentrate. Fli-Trole 64 is for use on hard, non-porous surfaces in: Public restrooms, shower and bath areas, health care facilities, schools and colleges, athletic facilities and locker rooms, correctional facilities, hotels, day care centers and nurseries. *Kills Pandemic 2009 H1N1 influenza virus.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**PREPARATION OF DISINFECTANT/FUNGICIDAL USE SOLUTION:** For use with water hardness up to 400 ppm. Before using this product, food products and packaging materials must be removed from the room or carefully protected. Apply 2 ounces of this product per gallon of water use solution (16 milliliters per liter) (850 ppm active quat) (or equivalent use dilution) to disinfect hard, inanimate, non-porous surfaces. Apply this product with a brush, cloth, mop, sponge or mechanical spray device, thoroughly wetting surfaces as required. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse pump or trigger spray device. Spray 6-8 inches from surface. Do not blow dry. Rinse with brush, sponge, mop or cloth. Treated surfaces must remain wet for 10 minutes. Rinse or allow to air dry. Rinsing is not necessary unless floors are to be coated with finish or resurfacer. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use this product to clean or disinfect china, glassware, dishes or interior surfaces of appliances. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. Note: With spray applications cover or remove all food products.

**DISINFECATION IN INSTITUTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions):** At 2 fluid ounces per gallon of water and a 10-minute contact time, this product is effective against the following organisms on hard non-porous inanimate surfaces: Burkholderia cepacia, Campylobacter jejuni, Corynebacterium ammoniagenes, Enterobacter aerogenes, Enterobacter cloacae, Enterococcus faecalis, Enterococcus faecium Vancomycin-resistant Enterococci (VRE), Escherichia coli, Escherichia coli Antibiocistant (AEC), Escherichia coli (EHEC), Klebsiella pneumoniae Antibiotic resistant, Legionella pneumophila, Listeria monocytogenes, Proteus mirabilis, Proteus vulgaris, Pseudomonas aeruginosa, Pseudomonas aeruginosa Antibiotic resistant, Salmonella enterica, Salmonella schottmuelleri, Salmonella typhi, Serratia marcescens, Shigella dysenteriae, Shigella flexneri, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus Methicillin-resistant, Staphylococcus epidermidis Antibiotic resistant, Streptococcus pyogenes, Vibrio cholerae.

**FUNGICIDAL ACTIVITY:** At 2 ounces per gallon use level, this product is effective against Trichophyton mentagrophytes - athlete's foot fungus, cause of Ringworm. Candida albicans on inanimate, hard, non-porous surfaces in locker rooms, dressing rooms, shower and bath areas, and exercise facilities. Pretreat all surfaces prior to using this product. Treated surface must remain wet for 10 minutes. Allow solution to air dry on surfaces and repeat treatment every seven days or when new growth appears.

**VIRUCIDAL PERFORMANCE:** At 2 ounces per gallon of water use level and a 10-minute contact time, this product was evaluated and found to be effective in against the following viruses on hard non-porous surfaces: Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Human Coronavirus, Respiratory syncytial virus, Avian influenza A/H7N9 Wisconsin virus, Influenza A/Brazil Virus.

**MOLD AND MILDEW CONTROL DIRECTIONS:** This product controls the growth of mold and mildew. Aspergillus niger and their odors on hard, non-porous surfaces. To control the growth of mold and mildew and their odors on hard, non-porous surfaces, apply 2 oz. of this product per one gallon of water. Thoroughly wet all treated surfaces completely. Allow surface to remain wet for 10 minutes. Let surface air dry. Repeat application weekly or when growth or odor reappears.

**DIRECTIONS FOR USE (Continued)**

- FOR DISINFECTING HARD, NON-POROUS SURFACES AGAINST AVIAN INFLUENZA A VIRUS: For use in homes, hospitals, hotels, motels and schools, the directions for use for hospital disinfection must be followed using the rate of 2 ounces per gallon of water. This product is not for use on Medical device surfaces.

**HOSPITALS, DENTAL OFFICES, NURSING HOMES AND OTHER HEALTH CARE INSTITUTIONS:** For disinfecting floors, walls, countertops, bathing areas, lavatories, tables, chairs, garbage bins and other hard, non-porous surfaces.

**INSTITUTIONAL DISINFECTANT DIRECTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions):** For heavily soiled areas, a preliminary cleaning is required. Add 2 ounces per gallon of water and apply to disinfect hard, non-porous surfaces. Apply use solution to hard, inanimate, non-porous surfaces thoroughly wetting surfaces with a brush, cloth, mop, sponge or mechanical spray device. For spray applications, use a coarse spray device. Spray 6-8 inches from surface. Rub with brush, sponge, mop or cloth. Do not blow dry. Treated surfaces must remain wet for 10 minutes. Rinse or allow to air dry. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. Note: With spray applications cover or remove all food products. At 1.5 ounces per gallon of water, this product was proven to be effective against HIV-1 AIDS Virus. At 2 ounces per gallon of water for a 10-minute contact time, this product was found to be effective against Diverse viral diarrhea virus B'VST Tsume for human Hepatitis C virus with a contact time of 10 minutes.

**KILLS HBV, HCV AND HIV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care setting or other settings in which there is an expected likelihood of soiling of inanimate surfaces with blood or body fluids and in which the surfaces objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis B Virus HBV and human immunodeficiency virus Type 1 of HIV-1 associated with AIDS and Hepatitis C Virus HCV.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HBV, HCV AND HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

- Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, and eye protection. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Fli-Trole 64. Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. Contact Time: Leave surface wet for 2 minutes and 10 minutes for HIV-1 and HIV-1 respectively. This 2 minute contact time will not control other common type of viruses and bacteria listed on this label. For HCV leave surface wet for 10 minutes.

**FOR USE AS A GENERAL CLEANER AND/OR DEODORIZER:** Use application to surfaces. Wipe surfaces and let air dry. For heavy duty use, add 2 ounces per gallon to clean hard, non-porous surfaces.

**DISINFECATION/FUNGICIDE/VIRUCIDE** of HARD NON-PORTUSURFACES IN WHIRLPOOL UNITS: After using the whirlpool unit, drain and refill with fresh water to just cover the intake valve. Add 2 oz. per gallon of water. Briefly start the pump to circulate the solution. Turn off the pump. Wash down the unit sides, seat of the chair, and air drainage equipment with a clean brush, wash brush, or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has thoroughly disinfect, drain the solution from the unit and rinse well with fresh water with fresh water. Repeat for heavily soiled.
