**CLEANING/DISINFECTING:** To clean/desinfect/disinfect hard, nonporous surfaces, follow the steps below. The disinfectant will automatically deliver a solution that has the desired effect. Place the dispenser in the area to be disinfected. 1. For the dispenser outlet tube to the receptacle (mop bucket, pail, trigger sprayer, etc.) and turn the dispenser on. Fill receptacle to the desired level then turn OFF. 4. Remove dispenser outlet tube. 5. Apply this solution with a mop, sponge, trigger sprayer, or cloth so as to thoroughly wet all surfaces. If sprayed, use a coarse spray. Allow to remain wet for 10 minutes and then let air dry.

**CLEANING/DEODORIZING/DISINFECTING:** Garbage bins and cans, and any other areas which are prone to odors caused by microorganisms.

**MILDEWSTAT:** To control mold and mildew on precleaned, hard nonporous surfaces, use BIO CLEAN at the stated dilution rate for disinfection. Apply solution with a cloth, mop, sponge, or hand pump trigger sprayer making sure to wet all surfaces completely. If sprayed, use a coarse spray. Let air dry. Prepare a fresh solution for each use. The stated disinfection dilution rate exhibits effective disinfectant activity against the organisms Escherichia coli, Klebsiella pneumoniae, Salmonella enterica serovar Typhimurium, Enterococcus faecalis, Staphylococcus aureus, Enterococcus faecium Vancomycin Resistant Enterococci (VRE), Citrobacter freundii, and Pseudomonas aeruginosa.

**REGULATIONS FOR INFECTIOUS WASTE DISPOSAL:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
CLEANING/DEODORIZING/DISINFECTING: To clean/deodorize/disinfect hard, corrosion-resistant surfaces, follow the steps below. The dispenser will automatically deliver a solution that will clean and disinfect all nonporous surfaces that can be reached by the dispenser outlet tube. If the dispenser outlet tube is the receptacle (mop bucket, pail, trigger sprayer, etc.) turn the dispenser on. Fill receptacle to the desired level then turn OFF. Remove dispenser unit before applying cleaning solution. With a mop, sponge, trigger sprayer, or cloth, soak thoroughly until all surfaces are cleaned. If spraying, use a coarse spray. Allow to remain in place for 10 minutes and then let air dry.

PRECAUTIONARY STATEMENTS

Hazard to humans and domestic animals: Harmful if swallowed. Do not drink. Call a poison control center or doctor for treatment advice.

Inhalation: Get fresh air immediately. If not breathing, give artificial respiration. If breathing, give large amounts of water when breathing. If not breathing, give artificial respiration. If breathing, give large amounts of water when breathing. If breathing, give large amounts of water when breathing. If breathing, give large amounts of water when breathing.

Eyes: Hold eyelids open and flush with a steady gentle stream of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin: Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

Ingestion: If swallowed by mouth, do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Do not give anything by mouth to an unconscious person. Do not give anything by mouth to an unconscious person.

Symptoms: See side panel for additional precautionary statements.

Potential carcinogen. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

INERT INGREDIENTS:

- Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl dimethyl benzyl ammonium chlorides
- Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides
- Nonionic surfactant
- Polyalcohol ethoxylate
- Sodium carbonate
- Sodium metasilicate
- TSP (trisodium phosphate)
- Water

*VIRUCIDE: BIO CLEAN, when used as directed, is formulated to disinfect inanimate, hard, nonporous surfaces made of stainless steel, chrome, porcelain, glass, wood or plastic on walls, floors, knobs, switches, toilets, sinks, bathtubs, nonporous shower curtains, garbage pails, and caddies.

**BACTERICIDAL ACTIVITY: BIO CLEAN, when used as directed, is formulated to disinfect inanimate, hard, nonporous surfaces made of stainless steel, chrome, porcelain, glass, vinyl or plastic on walls, floors, knobs, switches, toilets, sinks, bathtubs, nonporous shower curtains, garbage pails, and caddies.
