A Free Choice Supplement Block for Cattle and Horses

First Aid
- **If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Make sure to have the container with you. Do not induce vomiting unless told to by a poison control center or doctor.
- **If on Skin:** Take off contaminated clothing. Rinse skin with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice.
- **If in Eyes:** Hold eyes open and rinse with plenty of water for 15-30 minutes. Remove contact lenses if present. After flushing eyes, call a poison control center or doctor for treatment advice.

**HOT LINE NUMBER:** In case of emergency, contact: (800) 388-1100.

NOTE TO PHYSICIANS AND VETERINARIANS: Symptoms of intoxication include nervousness, confusion, incoordination, and excitement. If symptoms persist, consult a veterinarian.

STORAGE AND DISPOSAL:
- Do not contaminate water, food, or feed by storage or disposal.
- Use empty containers in a sanitary landfill or by incineration, if allowed by State and Local Authorities, by burning. Disposal of this product in any other manner is illegal and will result in criminal and civil liability. Disposal in the environment may cause harm.

GENERAL INSTRUCTIONS:
- 1. Feed 1 block per 5 head of cattle or horses. This allows all animals equal access to blocks. Feed blocks at the rate of 0.5 to 1.0 lb. per 100 lb. of bodyweight per day. This intake will supply 0.5 to 1.0 lb. per 100 lb. of bodyweight per day (1.5 lbs per 100 lbs. bodyweight per month).
- 2. Place blocks where animals congregate. Locate blocks throughout pasture, placing them near water and feeding areas. Maintain adequate distance between blocks (10 ft. minimum).
- 3. Do not allow animals to run out of blocks. When a block is half-consumed, place a new block near it. Place very small pieces in troughs or feed pans.
- 4. Animals will consume about 5 oz. per head daily. When animals consume the block at the recommended rate, it will supply 3 oz of selenium.
- 5. Blocks can be fed to animals on confinement. Extend location of blocks to obtain desired consumption will vary between confinement feeding programs.
- 6. Feed as the only FREE CHOICE source of salt, other minerals and vitamins. See table for recommended use rates.
- 7. SWELIX® Rabon® Molasses Pressed Block is effective in using for fly control in the pasture. It is used on farms for control of horse flies and stable flies in the pastures.
- 8. Follow feeding directions. Consumption of selenium should not exceed 3 mg per head daily.
