MERGAL® K10N

Industrial Preservative To Prevent Deterioration and Degradation Caused By Bacteria and Fungi in Aqueous Systems. Such As Polymer Emulsions And Dispersions, Paints and Coatings, Plastics, Caulks, Sealants, Adhesives, Thickeners, Joint Cements, Metalworking Fluids, Mineral and Pigment Stains, Oil-Water Emulsions, Textile Coatings and Inks

EPA Reg. No. 5383-107
EPA Establishment Number 5383-NJ-01

ACTIVE INGREDIENT: 1,2-benzisothiazolin-3-one
% Weight: 8.5%
INERT INGREDIENTS: 90.5%
TOTAL: 100.0%

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. MERGAL® K10N is an industrial preservative used to prevent deterioration and degradation caused by bacteria and fungi in aqueous systems, such as polymer emulsions, paints, coatings, plastics, caulks, sealants, adhesives, thickeners, joint cements, pigment and mineral stains, metalworking fluids, oil-water emulsions, textile coatings and inks. MERGAL® K10N is suitable for a wide range of conditions and can be used at pHs of 2-3-5. Since MERGAL® K10N contains no organic solvents, it is especially suited for applications where VOCs are a concern.

The MERGAL® K10N components are cleared for use by the US Food and Drug Administration in accordance with the following conditions, as set forth under Title 21 of the Code of Federal Regulations (CFR): Section 175.105 - Components of Adhesives Section 175.170 - Components of Paper and Paperboard in Contact with Aqueous and Fatty Foods Section 176.180 - Components of Paper and Paperboard in Contact with Dry Food

MERGAL® K10N can be added at any stage of production, but it is recommended that the addition be made to the water in the beginning of the process.

DANGER

STORAGE

STORAGE: Protect from freezing. If frozen, allow the product to thaw and air will be removed.

PROHIBITED DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. Open dumping is prohibited.

CONTAINER DISPOSAL: Returnable (Reusable) Totes: Triple rinse (or equivalent). Return to Packer or to Troy Chemical Corporation. Non-Returnable (Disposable) Totes: Triple rinse (or equivalent). To be recycled at certified disposal facilities.

NOTE TO PHYSICIAN:

Probable mucosal damage may necessitate the use of gastric lavage.
