**Class Act® NG®**  
By WinField

**Water Conditioning Agent/Nonionic Surfactant Blend**

**Principal Functioning Agents:**  
- Ammonium sulfate, corn syrup, alkyl polyglucoside .......................... 50.5%
- Constituents ineffective as spray adjuvants .............................. 49.5%
- **Total** .................................................................................................... 100.0%

**Constituents Ineffective As Spray Adjuvants**

**Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Do not get in eyes, on skin, or on clothing. Wear chemical-resistant gloves when mixing or handling product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.**

**First Aid**

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If On Skin Or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

**Precautionary Statements**

**Caution**

**Keep Out Of Reach Of Children**

GENERAL INFORMATION
CLASS ACT® NG®, a water conditioning agent (Ammonium Sulfate)/Nonionic Surfactant Blend, is a low foam formula for use with pesticides that are labeled for agricultural, aquatic, forestry, non-cropland, and right-of-way uses. CLASS ACT® NG® is formulated to meet the surfactant and ammonium sulfate recommendation for many glyphosate, glufosinate, paraquat, and diquat products or other herbicides requiring the addition of nonionic surfactant and ammonium sulfate. CLASS ACT® NG® reduces potential antagonism and improves uptake of most nutrients in foliar applications. This patented formulation contains 1.3 pounds of sugar per gallon.

Approved for Aquatic Use With Pesticides Labeled for Aquatic Use.

DIRECTIONS FOR USE
Shake Well Before Using

CLASS ACT® NG® may be used at a rate of 2.5-5.0% v/v (2.5-5.0 gallons per 100 gallons of spray solution). This meets Roundup® Original, Cornerstone® and similar product label requirements for 0.5-1.0% v/v nonionic surfactant plus 8.5-17 pounds of dry ammonium sulfate per 100 gallons of water. Follow herbicide label for specific rates, mixing instructions and other precautionary instructions. Do not mix CLASS ACT® NG® with INTERLOCK® in an induction system or container when both products are undiluted. Once mixed in water, both products are compatible in either mixing order.

Amounts of nonionic surfactant and dry ammonium sulfate in CLASS ACT® NG®.

STORAGE AND DISPOSAL

STORAGE: Keep product in original container. Do not contaminate water, food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
