Corral® Poly
By WinField
Drift Control Agent and Deposition Aid
for use with Pesticides and Fertilizers

**PRINCIPAL FUNCTIONING AGENTS:**
Polyvinyl Polymer (Polyacrylamide) .......................................................... 30.00%
Constituents Ineffective as Spray Adjuvant ................................................ 70.00%
TOTAL ........................................................................................................... 100.00%

All ingredients are exempt from tolerance requirements as specified in federal regulation 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN**

**WARNING**

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

**IF ON SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Immediately call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Contains petroleum distillate - vomiting may cause aspiration pneumonia.

**USE PRECAUTIONS**

The degree of drift hazard varies with the type of pesticides, application conditions, and vegetation near the sprayed area. Common sense and sound application technology must be followed when spraying pesticides. CORRAL POLY will retard but not totally eliminate drift.

1. Select proper dosage for the spraying operation.
2. Fill the mix tank with water, pesticide, fertilizer, surfactant and/or other additives and begin agitating.
3. Shake CORRAL POLY well before using.
4. For best results, either (1) inject CORRAL POLY liquid into the suction side of the feeder or recirculating pump to obtain adequate solution, or (2) slowly add CORRAL POLY liquid to the rapidly agitating tank mix to the areas of highest turbulence by pouring a thin stream through a pour space.
5. Continue to agitate the mix tank for at least 3 minutes before spraying.

**Dosage:** Generally 1-8 ounces per 100 gallons of spray solution.
- Cone or raindrop nozzles 1-3 oz.
- Flat fan or flood nozzles 1-5 oz.
- Off center nozzles 2-6 oz.
- Spray gun (30-50 psi) 5-8 oz.

After use, flush and rinse spray system. Follow clean-up instructions on the pesticide label.

**NOTICE OF WARRANTY:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
