CONSUME ECO-LYZER
Neutral Disinfectant Cleaner with Residual Biological Odor Control

At no dilutions, Consume Eco-Lyzer provides 85% of the standardized total active ingredient per the National Sanitation Foundation (NSF) Protocol standard per the 2016 edition of the Standard for Detergents and Sanitizers for Food Contact Surfaces, NSF 1-16. This product contains an active ingredient, n-octyl decyl dimethyl ammonium chloride, that is not FDA approved for disinfection. Each ounce of Consume Eco-Lyzer provides an enzyme-producing bacteria for the extended control of odors. These bacteria will not develop into colonies on hard, nonporous, inanimate surfaces such as floors and walls made of quarry tile, concrete, terrazzo, vinyl composition floor tile, metal (such as steel & stainless steel), glazed porcelain and plastic.

Consume Eco-Lyzer is for use on hard, nonporous, inanimate surfaces such as floors and walls made of quarry tile, concrete, terrazzo, vinyl composition floor tile, metal (such as steel & stainless steel), glazed porcelain and plastic.

Safe for use on: Floors, walls, cages, carriers, vehicles, etc. Balance all solutions from product or another source (animal-related or not) for the purpose of maximum use of the product without the development of colonies on hard, nonporous, inanimate surfaces such as floors and walls made of quarry tile, concrete, terrazzo, vinyl composition floor tile, metal (such as steel & stainless steel), glazed porcelain and plastic.

First Aid:
If inhaled:
Move person to fresh air. If a person is not breathing, call 911 or an ambulance, then give artificial respiration. Do not use mouth-to-mouth resuscitation with unconscious person. Call a poison control center or doctor for further treatment advice.

If on skin:
Wash the contamination with soap and water. If not rinsed off, set or dried. Prepare fresh use-solution for each use, then discard. Use a cloth, mop, sponge or coarse foamer. Rinse with water or allow to air dry. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been completed.

SPECIAL INSTRUCTIONS FOR CLEANING AND DISINFECTING AGENTS AND SURFACES ON OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS:
Blood and other body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for exposure to HIV, Hepatitis B Virus, and Hepatitis C Virus. The surfaces/objects are within the infectious material exposure zone and are likely to harbor infectious material such as blood or body fluids. The infectious material is a bloodborne pathogen that can be transmitted parenterally, percutaneously, and perinatally.

DANGER:
Consume Eco-Lyzer is a revolutionary quaternary based disinfectant formulated to kill odor causing bacteria and viruses, create soils and break non-pathogen's, odors-producing enzymes, and provide residual biological odor control. Consume Eco-Lyzer is for use on hard, nonporous, inanimate surfaces such as floors and walls made of quarry tile, concrete, terrazzo, vinyl composition floor tile, metal (such as steel & stainless steel), glazed porcelain and plastic.

A revolutionary quaternary based disinfectant formulated to kill odor causing bacteria and viruses*, create soils and break non-pathogen's, odors-producing enzymes, and provide residual biological odor control. Consume Eco-Lyzer is a stabilizable neutral disinfectant cleaner with enzyme producing bacteria for the extended control of odors.

NOTE TO PHYSICIAN
For rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

Labeled Use: 85% of the standard total active ingredient of n-octyl decyl dimethyl ammonium chloride. 0.82% of the active ingredient per gallon. Dose: 2 oz. per gallon of water. 0.82% of n-octyl decyl dimethyl ammonium chloride. OSHA Hazard: Corrosive. To avoid eye and skin irritation, wear protective eyewear, mask, and gloves when handling. Use with caution as a highly concentrated disinfectant and enzyme-producing bacteria. Avoid contact with the eyes, mouth, and skin. Consume Eco-Lyzer is for use on hard, nonporous, inanimate surfaces such as floors and walls made of quarry tile, concrete, terrazzo, vinyl composition floor tile, metal (such as steel & stainless steel), glazed porcelain and plastic.

Dilution and Use:
For pre-cleaning or sanitizing this product in a manner inconsistent with its labeling. For cleaning and disinfecting the Veterinary Practice / Animal Care / Zoos / Pet Shops / Kennels / Stables, etc. Remove all animals and feeds from premises. Thoroughly clean from surfaces and objects before application. Blood and other body fluids must be removed from premises, animal-related or not. For cleaning and disinfecting areas where persistent malodors are a problem.
