CyLence Ultra®
Insecticide Cattle Ear Tag
For use with Allflex® Universal Total Tagger with red pin and black clip.

CyLence Ultra®
Insecticide Cattle Ear Tag
For use with Allflex® Universal Total Tagger with red pin and black clip.

For Use On Beef And Dairy Cattle (Including Lactating) To Control Face Flies, Horn Flies, Gulf Coast Ticks And Spinoe Ear Ticks
- Effective Against Face Flies and Pyrethroid Susceptible Horn Flies for up to 5 months.
- Kills and Repels Face Flies — mechanical vector of Moraxella bovis bacteria causing “pink eye” of cattle.
- Synergized for extra performance.

Active Ingredients:
- Beta-cyfluthrin: 0.4% (4-fluoro-3-phenoxyphenyl) methyl 3-(2,2-dichloroethyl)
- 2, 2-dimethyl-1,3-propanediol: 0.8%
- Piperonyl butoxide: 0.2%
- Other ingredients: 72%

Percent By Weight: 100%

Keep Out Of Reach Of Children

CAUTION
See Side Panel for Additional Precautionary Statements

Net Contents:
2 Pouches of 10 Tags Each
0.5 oz Per Tag

Designed for use with Allflex black clip

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
May cause eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Wear nonpermeable protective gloves when applying or removing tags. Wash thoroughly with soap and water after use to avoid skin irritation. Drink plenty of water for children under 1 year of age; only water for children 1 year and older. If swallowed:
- Call poison control center or doctor immediately for treatment advice.
- Do not give anything to an unconscious person.

FIRST AID
If in Eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, and then continue rinsing eye.
- Call poison control center or doctor for treatment advice.

If Swallowed:
- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything to an unconscious person.

If on Skin Or Clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call poison control center or doctor for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing call 911 or an ambulance then give artificial respiration, if necessary mouth-to-mouth if possible.

HOTLINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the product information center at 1-800-433-0786, or for emergency medical treatment information call 1-800-222-1222.

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

For the control of horn flies, face flies, gulf coast ticks, and spinoe ear ticks on beef and dairy cattle (including lactating).

All mature animals in the herd should be treated. For adequate control of horn flies, attach one tag per animal. For optimum control of face flies, horn flies, gulf coast ticks, and spinoe ear ticks, attach one tag to each ear (two per animal). Replace as necessary. Cyflurame Ultra® Insecticide Ear Tags have been proven to be effective against face and horn flies for up to five months.

Use the Afflex® Universal Total Tagger with red pin and black clip to apply tags to cattle.

Apply as indicated (Figures 1-4). Cattle less than 3 months of age should not be treated as ear damage may result. Remove tags at end of fly season or prior to slaughter.

Continual exposure of horn flies to a single class of Insecticide (e.g., pyrethroids or organophosphates) may lead to the development of resistance to that class of Insecticide. In order to reduce the possibility of horn flies developing resistance it is important to rotate the class of Insecticide used and/or the method of horn fly control on a seasonal basis. Cyflurame Ultra® Cattle Ear Tags contains the pyrethroid insecticide buprofezin plus pyrethrin bavicide, which is an Insecticide synergist.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in cool place in original container. Opened pouches containing ear tags should be resoled for storage.

Pesticide Disposal: Waste (spent tags) resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Dispose of empty pouch in a sanitary landfill or by incineration, or follow by State and local authorities by burning. If burned, stay out of smoke.

Environmental Hazards: This pesticide is toxic to fish. Do not contaminate water when disposing of used tags. Apply this product only as specified on the label.
