**ACTIVE INGREDIENT:**
- Methyl 2-benzimidazolcarbamate ............9.0%  
- 3-iodo-2-propynyl butyl carbamate ..........3.0%  
- Diuron (3-(3,4-dichlorophenyl)-1,1-dimethylurea) ....15.0%  

**INERT INGREDIENTS** ........................................73.0%  
**TOTAL** ..................................................100.0%

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters. Use in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the applicable state regulations. Do not discharge ef fluent containing this product to sewer systems without a permit. Contact your State Water Board or Regional office of the EPA for guidance.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons.

**Polyphase® 663** is a water dispersion of biocides effective against a wide variety of fungal and algal organisms. The primary application is in water-based products where VOC is a major concern. Suggested application levels are based on laboratory and field evaluations and are typical for the use areas indicated. Suggested use levels are reported as percentage weight/weight of Polyphase® 663, based on the weight of the final use product.

**Polyphase® 663** should be added to paints and coatings at the end of the manufacturing cycle, after the final pH adjustment has been made, at the following rate:

- **Paint**: 0.1 – 2.0%
- **Wood protectives**: 0.5 – 2.0%
- **Masonry coatings**: 0.2 – 0.6%
- **Roof coatings**: 0.7 – 2.0%

*Only for use in film forming applications where the product is bound by polymeric or acrylic resins.* Avoid spray application and application when rain is imminent. In order to prevent damage to surrounding vegetation, cover all exposed vegetation near the application site.

**Polyphase® 663** may be added to caulks and sealants at the end of the production cycle with good agitation at 0.5-1.5%. **Polyphase® 663** may be added to stucco at a rate of 0.5-1.5% and to joint cements at a rate of 0.5-1.2%.

**STORAGE AND DISPOSAL**

Do not store near food, feed or feeds. Do not apply to or allow to contaminate food or feed for use in grazing livestock. Applications for the control of weeds shall not be made to any area from which products are to be harvested for use as food, feed or feed ingredient, or for human consumption. Do not apply to areas where livestock or pets are present.

**PECIDIC STEORAGE-** Do not store below 44°F (7°C). The container should be tightly closed and stored in an upright position.

**PECIDIC DISPOSAL -** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixtures, or residuals is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State or Environmental Control Agency for disposal instructions.

**CONTAINER HANDLING-** Nonreturnable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, if available, or puncture and dispose of in a sanitary landfill or incinerator, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
