DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CheckMate® SF Dispenser is a behavior modifying biochemical product (pheromone) which functions by mating disruption. It is to be used in pest management programs for control of oriental fruit moth (Grapholita molesta) and peach twig borers (Anarsia lineatella).

The OFM and PTB pheromones are each contained in, and released from, separate solid matrix hand applied dispensers, included on the same attachment device, for ease of application.

METHOD OF APPLICATION: For use on peaches, nectarines, apricots, plums, prunes, cherries, almonds, and any other stone fruit and tree nut crops where these pests are a common problem.

The rate of application of CheckMate® SF Dispenser is 150 to 200 dispenser attachment devices (each containing two dispensers) per acre. Apply the first application early in the season, after detection of the first oriental fruit moth and prior to detection of the first peach twig borer moth, using separate OFM and PTB pheromone traps such as BioLure®. This product only affects adult male moths and will have no effect on female moths, eggs or larvae. If application occurs following boxed of PTB (the first caste PTB moths are found consistently in pheromone traps such as BioLure®) or during the growing season, the orchard must be treated with insecticide treatments that will effectively control hatching larvae until egg laying by previously mated female moths has ceased to occur. In moderate to high insect pressure situations, supplemental insecticide applications during the season to protect developing fruit must be made based on trap monitoring, field scouting, and appropriate degree-day models for the local growing area and must be timed to control emerging larvae. Follow the BioLure Technical Bulletin for trap placement. Monitor for insect infestations with traps and by visual inspection of trees, shoots and fruit. Reapply CheckMate® SF Dispenser based on monitoring results and field scouting. Do not exceed 150 grams a.l./acre/year for either of the pheromone active ingredients (a total of 750 dispenser attachment devices/acre/year).

Apply dispensers to thumb-size limbs of crop to be protected. Place dispensers in the upper one-third of the canopy of the tree. Distribute dispensers uniformly throughout the block. If there is a persistent and prevalent wind, apply one dispenser attachment devices to every tree on the windward side of the orchard and then evenly distribute the remaining dispensers in the block. Wash hands after application. Do not handle other types of insect lures or after dispenser placement without thoroughly washing hands. Place monitoring traps in the orchard before handling CheckMate® SF Dispenser. Monitor treatments carefully for secondary pests. Do not use CheckMate® SF Dispenser from damaged, punctured or unsealed containers.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store container in cool place until used. Reuse containers immediately after use. Store unused product in a refrigerator or freezer not used for food storage. PESTICIDE DISPOSAL: Store resulting from the use of this product may be disposed of on-site or at an approved disposal facility.

CONTAINER DISPOSAL: Plastic Container. Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or in incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke. Bag/Carboard Box: Nonrefillable container. Do not reuse or refill this container. Dispose of empty bag/cardboard box in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

To the extent consistent with applicable law, Suterra LLC warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use. To the extent consistent with applicable law, Suterra LLC neither makes nor authorizes any agent or representative to make any other warranty of fitness or merchantability, guaranteed or representation, express or implied, concerning this material. To the extent consistent with applicable law, Suterra LLC’s maximum liability for breach of this warranty shall not exceed the purchase price of this product. To the extent consistent with applicable law, the buyer and user acknowledge and assume all risks and liabilities resulting from the handling, storage and use of this material contrary to label instructions.
