INDUSTRIAL FUNGICIDE

ACTIVE INGREDIENT: 3-Iodo-2-Propynyl Butyl Carbamate .......... 40.0%
INERT INGREDIENTS: ........................................ 60.0%
Contains petroleum distillate
TOTAL: .................................................. 100.0%

DANGER
SOLD FOR INDUSTRIAL USE
See side panel for Additional Precautionary Statements
KEEP OUT OF REACH OF CHILDREN

IN CASE OF EMERGENCY:
CALL 1-800-424-9300

SOLD BY: CONTECHEM INC.
P.O. BOX 3255
PORTLAND, OR 97208
(503) 283-3021

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinseate.

DIRECTIONS FOR USE
It is a violation for Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION
PRODUCT: The following are suggested use levels for Britewood PF-1. Typical use levels given for the various applications indicate the approximate levels for the particular application. All suggestions are given in percentage by weight and refer to the product Britewood PF-1.
USE: In order to determine the cost effective use level for Britewood PF-1 in a given use field trials are suggested.

GENERAL PRECAUTION AND RESTRICTIONS
Do not apply this product in a way that will contact workers or other persons. Britewood PF-1 is not to be used in formulations for materials that come into contact with food.

APPLICATION INSTRUCTIONS
PAINTS AND STAINS: Generally use 0.4-1.2% or 4-12 pounds of Britewood PF-1 per one hundred gallons. For hot, humid areas use up to 2.0% (20 pounds). For interior paints use 0.1-0.4% (1-4 pounds). For wood protective stains use 0.8-1.2% (15-12 pounds) of Britewood PF-1.
WOOD: For above ground use up to 1.2-2.0% depending on weather. For sapstock-control, use 0.5% within 24 hours of cutting. For millwork, use 0.5%. Do not apply to wood surfaces that come into contact with food.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: This material has a tendency to crystallize at low temperatures. Storage temperatures below 90°F (32°C) and above 120°F (49°C) are suggested.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixture, or rinsewater is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or environmental control agency or the hazardous waste representative at the nearest EPA regional office for guidance.
CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DISCLAIMER
The manufacturer and distributor make no warranty, expressed or implied, concerning the use of this product other than as directed on the label. The use of this product beyond the control of the manufacturer or distributor, no warranty, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practices. Upon acceptance of delivery of this product, the buyer assumes all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.
