MilStop®

For Organic Production
A Fungicide for the Control of
Powdery Mildew and Other
Diseases on Terrestrial and
Indoor Ornamental Plants,
Greenhouse and Agricultural
Crops

Active ingredient:
Potassium Bicarbonate..... 85.0%
Other ingredients:..... 15.0%
Total: 100.0%

EPA Reg. No. 70870-1-68539
EPA Est. No. 57187-NY-01

Keep out of reach of children

Caution
See inside panel for the First Aid
Information

Manufactured in the USA for:

BioWorks®
100 Rawson Rd., Suite 205, Victor, NY 14564

Net Weight: □ 5 lb (2.27 kg) □ 25 lb (11.35 kg)

Batch Code: BV0088 08/11

Precautionary Statements
Hazard to Humans and Domestic Animals

Caution: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with
eyes or clothing.

First Aid

If swallowed:
• Call poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting.
• Do not give anything by mouth to an unconscious person.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20
minutes.
• Remove contact lenses, if present, after the first 5 minutes, then
continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

HOT Line Number
Have a product label or container with you when calling a poison control center or doctor, or
going for treatment. You may also contact the National Pesticide Information Center (NPIC)
at 1-800-929-9676 between the hours of 8:30 a.m. to 4:30 p.m. Pacific Time, seven days a week
for emergency medical information.

Personal Protective Equipment
Applicators and other handlers must wear: Long-sleeved shirt and long pants and shoes
plus socks. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such
instructions for washables, use detergent and hot water. Keep and wash PPE separately from
other laundry.

User Safety Recommendations
Users should: Wash hands before eating, drinking, chewing gum, using tobacco or using the
bathroom. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on
clean clothing. Remove PPE immediately after handling this product. Wash outside of gloves
before removing. As soon as possible, wash thoroughly and change into clean clothing.
ENVIRONMENTAL HAZARDS
For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters and rinsates.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation. Do not apply this product through any type of irrigation system.

AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. There is a restricted entry of one (1) hour for this product.

PPE requirement for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls over short sleeved shirt and short pants, waterproof gloves and shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS
The requirements in this box apply to uses of this product not within the scope of the Worker Protection Standards for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Keep unprotected persons out of treated areas until sprays have dried.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in a cool, dry place. Prevent exposure to moisture. Keep container tightly closed and out of reach of children. Avoid contamination with other pesticides or fertilizers.

PESTICIDE SPILL PROCEDURE: In case of a spill, carefully sweep up the material to avoid generating dust. Store in a labeled container for disposal.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: (For pails with liner) Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Offer liner for recycling, if available, or dispose of in a sanitary landfill or by incineration. If pail is contaminated, triple rinse promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container 1/4 full of water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

(For plastic bags) Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Then offer for recycling, if available, or dispose of empty bag in a sanitary landfill or by incineration. Do not burn unless allowed by state and local ordinances. If burned, stay out of smoke.

GENERAL INFORMATION: MiliStop is a broad spectrum, contact foliar fungicide that controls a variety of diseases on terrestrial and indoor woody and herbaceous ornamental plants, and on greenhouse, nursery and agricultural crops, and on turf. MiliStop is applied using a sufficient volume of water to insure complete coverage of all stems and foliage.

NOTICE TO USER: Due to variability within species and in application techniques and equipment, and possible tank mix combinations, neither the manufacturer nor the seller has determined whether MiliStop can be safely used on all varieties and species of ornamentals, greenhouse, turf and agricultural plants under all conditions. Therefore, the professional user should determine if MiliStop can be used safely before broad usage by applying the prescribed use rate under the conditions expected to be encountered in a small test area. Any adverse effects should be visible within 14 days. For curative disease control on sensitive crops apply at a rate of 2.5 pounds of MiliStop per
