Raid® Double Control Small Roach Baits contain Abamectin, an ingredient that keeps killing roaches nonstop. Raid® Double Control Small Roach Baits are so advanced they kill roaches where they breed, helping to rid your home of roaches for up to three months. Raid® Double Control Small Roach Baits may be placed anywhere you’ve seen roaches, even in cabinets. Raid® Double Control Small Roach Baits are guaranteed to work for even severe bug infestations.

THIS IS HOW RAID® DOUBLE CONTROL SMALL ROACH BAITS WORK

1. Raid® Double Control Small Roach Baits fit snugly in corners and along paths commonly traveled by roaches.
2. Roaches are attracted to the bait to feed. For best results use all 12 baits at one time as shown.
3. Raid® Double Control Small Roach Baits contain two food sources that roaches eat. Roaches eat the bait and return to nesting area to die.
4. Bait carried back to the nest continues to kill other roaches.

DIRECTIONS FOR HOUSEHOLD USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For thorough roach control, use all 12 baits at one time. To keep roaches from returning, replace all baits every three months.

1. Break Raid® Double Control Small Roach Baits apart from the plastic frame.
2. For thorough roach control, all 12 baits must be used at one time. Place 10 baits in the kitchen and 2 in each bathroom. FOR LARGER KITCHENS or PARTICULARLY HEAVY INFESTATIONS, we strongly recommend using additional baits and placing at least 12-15 baits in the kitchen and 2-4 in each bathroom.
3. For best results, place the baits next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. You can even place Raid® Double Control Small Baits in cabinets. Do not contaminate feed or food products or food preparation surfaces, dishes, kitchen utensils and food containers.
4. Baits work best on horizontal surfaces touching corners and walls.
5. Roaches will begin eating the bait immediately and you should expect to see fewer roaches within days.
6. Replace ALL baits every three months to keep roaches from returning. Use the 3 month reminder on the baits to indicate the date of replacement.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area inaccessible to children. Do not store above 130°F.

DISPOSAL: If empty: Do not reuse the bait station. Place in the trash or offer for recycling if available. If partially filled: Call your local solid waste agency or call 800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
